21 CFR Part 172

[Docket No. 81F-0105]

Food Additives Permitted for Direct Addition to Food for Human Consumption; Epoxidized Soybean Oil

AGENCY: Food and Drug Administration, HHS.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the food additive regulations to provide for the safe use of epoxidized soybean oil as a halogen stabilizer in brominated soybean oil. This action is in response to a petition filed by Unitech Chemical, Inc.

DATES: Effective June 26, 1995; written objections and requests for a hearing by July 26, 1995. The Director of the Office of the Federal Register approves the incorporation by reference in accordance with 5 U.S.C. 552(a) and 1 CFR part 51 of certain publications in new § 172.723, effective June 26, 1995.

ADDRESSES: Submit written objections to the Dockets Management Branch (HFA-305), Food and Drug Administration, rm. 1-23, 12420 Parklawn Dr., Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Martha D. Peiperl, Center for Food

Safety and Applied Nutrition (HFS-217), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-418-3077.

SUPPLEMENTARY INFORMATION: In a notice published in the **Federal Register** of April 28, 1981 (46 FR 23811), FDA announced that a food additive petition (FAP 7A3329) had been filed by Unitech Chemical, Inc., 115 West Jackson Blvd., Chicago, IL 60604. Subsequently, all rights to this petition were sold to American Chemical Service, Inc., P.O. Box 190, Griffith, IN 46319. The petition proposes that the food additive regulations be amended to provide for the safe use of epoxidized soybean oil as a halogen stabilizer at a level not to exceed 1 percent in brominated soybean oil intended for use in foods for human consumption. Brominated soybean oil is permitted in food on an interim basis under 21 CFR 180.30 (brominated vegetable oil), for use only as a stabilizer for flavoring oils used in fruit-flavored beverages in an amount not to exceed 15 parts per million in the finished beverage.

FDA has evaluated data in the petition and other relevant material. The agency concludes that the proposed use of the additive is safe, and that the food additive regulations should be amended by adding new § 172.723 as set forth below.

In accordance with § 171.1(h) (21 CFR 171.1(h)), the petition and the documents that FDA considered and relied upon in reaching its decision to approve the petition are available for inspection at the Center for Food Safety and Applied Nutrition by appointment with the information contact person listed above. As provided in 21 CFR 171.1(h), the agency will delete from the documents any materials that are not available for public disclosure before making the documents available for inspection.

The agency has previously considered the environmental effects of this action as announced in the notice of filing for FAP 7A3329 (46 FR 23811, April 28, 1981). No new information or comments have been received that would affect the agency's previous determination that there is no significant impact on the human environment and that an environmental impact statement is not required. In addition, based on information in a letter from the petitioner dated February 15, 1990, FDA prepared a new finding of no significant impact. Both the letter of February 15, 1990, and the new finding of no significant impact may be seen in the Dockets Management Branch (address

above) between 9 a.m. and 4 p.m., Monday through Friday.

Any person who will be adversely affected by this regulation may at any time on or before July 26, 1995, file with the Dockets Management Branch (address above) written objections thereto. Each objection shall be separately numbered, and each numbered objection shall specify with particularity the provisions of the regulation to which objection is made and the grounds for the objection. Each numbered objection on which a hearing is requested shall specifically so state. Failure to request a hearing for any particular objection shall constitute a waiver of the right to a hearing on that objection. Each numbered objection for which a hearing is requested shall include a detailed description and analysis of the specific factual information intended to be presented in support of the objection in the event that a hearing is held. Failure to include such a description and analysis for any particular objection shall constitute a waiver of the right to a hearing on the objection. Three copies of all documents shall be submitted and shall be identified with the docket number found in brackets in the heading of this document. Any objections received in response to the regulation may be seen in the Dockets Management Branch between 9 a.m. and 4 p.m., Monday through Friday.
