

## National Highway Traffic Safety Administration

[Docket No. 95-002; Notice 1]

### Notice of Receipt of Petition for Decision that Nonconforming 1972 Volkswagen Van-Type Wagons Are Eligible for Importation

**AGENCY:** National Highway Traffic Safety Administration, DOT.

**ACTION:** Notice of receipt of petition for decision that nonconforming 1972 Volkswagen Van-Type Wagons are eligible for importation.

**SUMMARY:** This notice announces receipt by the National Highway Traffic Safety Administration (NHTSA) of a petition for a decision that a 1972 Volkswagen Van-Type Wagon that was not originally manufactured to comply with all applicable Federal motor vehicle safety standards is eligible for importation into the United States because (1) it is substantially similar to a vehicle that was originally manufactured for importation into and sale in the United States and that was certified by its manufacturer as complying with the safety standards, and (2) it is capable of being readily altered to conform to the standards.

**DATES:** The closing date for comments on the petition is February 13, 1995.

**ADDRESSES:** Comments should refer to the docket number and notice number, and be submitted to: Docket Section Room 5109, National Highway Traffic Safety Administration, 400 Seventh St., SW., Washington, DC 20590. [Docket hours are from 9:30 am to 4 pm]

#### SUPPLEMENTARY INFORMATION:

#### Background

Under 49 U.S.C. 30141(a)(1)(A) (formerly section 108(c)(3)(A)(i)(I) of the National Traffic and Motor Vehicle Safety Act (the Act)), a motor vehicle that was not originally manufactured to conform to all applicable Federal motor vehicle safety standards shall be refused admission into the United States unless NHTSA has decided that the motor vehicle is substantially similar to a motor vehicle originally manufactured for importation into and sale in the United States, certified under 49 U.S.C. 30115 (formerly section 114 of the Act), and of the same model year as the model of the motor vehicle to be compared, and is capable of being readily altered to conform to all applicable Federal motor vehicle safety standards.

Petitions for eligibility decisions may be submitted by either manufacturers or importers who have registered with NHTSA pursuant to 49 CFR Part 592. As specified in 49 CFR 593.7, NHTSA publishes notice in the **Federal Register** of each petition that it receives, and affords interested persons an opportunity to comment on the petition. At the close of the comment period, NHTSA decides, on the basis of the petition and any comments that it has received, whether the vehicle is eligible for importation. The agency then publishes this decision in the **Federal Register**.

G&K Automotive Conversion, Inc. of Santa Ana, California ("G&K") (Registered Importer 90-007) has petitioned NHTSA to decide whether 1972 Volkswagen Van-Type Wagons are eligible for importation into the United States. The vehicle which G&K believes is substantially similar is the 1972 Volkswagen Van-Type Wagon that was manufactured for importation into, and sale in, the United States and certified by its manufacturer, Volkswagenwerke A.G., as conforming to all applicable Federal motor vehicle safety standards.

The petitioner claims that it carefully compared the non-U.S. certified 1972 Volkswagen Van-Type Wagon to its U.S. certified counterpart, and found the two vehicles to be substantially similar with respect to compliance with most Federal motor vehicle safety standards.

G&K submitted information with its petition intended to demonstrate that the non-U.S. certified 1972 Volkswagen Van-Type Wagon, as originally manufactured, conforms to many Federal motor vehicle safety standards in the same manner as its U.S. certified counterpart, or is capable of being readily altered to conform to those standards.

Specifically, the petitioner claims that the non-U.S. certified 1972 Volkswagen Van-Type Wagon is identical to its U.S. certified counterpart with respect to compliance with Standard Nos.

102 Transmission Shift Lever Sequence \* \* \*, 103 Deferring and Defogging Systems, 104 Windshield, Wiping and Washing Systems, 106 Brake Hoses, 107 Reflecting Surfaces, 111 Rearview Mirror, 205 Glazing Materials, 209 Seat Belt Assemblies, 210 Seat Belt Assembly Anchorages, and 211 Wheel Nuts, Wheel Discs and Hubcaps.

Petitioner also contends that the vehicle is capable of being readily altered to meet the following standards, in the manner indicated:

Standard No. 101 Controls and Displays: inscription of the appropriate symbol on the controls for the lights,

hazard warning signal, windshield wiper, and windshield washer.

Standard No. 108 Lamps, Reflective Devices and Associated Equipment: (a) Installation of U.S.-model sealed beam headlamps and front sidemarkers; (b) installation of U.S.-model taillamp lenses and rear sidemarkers.

Standard No. 116 Brake Fluid: Installation of a label with the required information on or near the brake fluid cap.

Standard No. 206 Door Locks and Door Retention Components: Installation of U.S.-model rear door locks.

Standard No. 208 Occupant Crash Protection: Installation of a seat belt warning system with a lighted symbol.

Interested persons are invited to submit comments on the petition described above. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5109, 400 Seventh Street, S.W., Washington, DC 20590. It is requested but not required that 10 copies be submitted.

All comments received before the close of business on the closing date indicated above will be considered, and will be available for examination in the docket at the above address both before and after that date. To the extent possible, comments filed after the closing date will also be considered. Notice of final action on the petition will be published in the Federal Register pursuant to the authority indicated below.

**Authority:** 49 U.S.C. 30141 (a) (1) (A) and (b) (1); 49 CFR 593.8; delegations of authority at 49 CFR 1.50 and 501.8.

Issued on: January 6, 1995.
