DEPARTMENT OF LABOR**Occupational Safety and Health Administration****29 CFR Parts 1910, 1915, and 1926**

RIN: 1218-AB25

Occupational Exposure to Asbestos

AGENCY: Occupational Safety and Health Administration, Department of Labor.

ACTION: Final rule; extension of start-up dates for compliance.

SUMMARY: OSHA is extending the start-up dates for some provisions of the asbestos standards until October 1, 1995 to give the public more time to implement compliance.

DATES: These amendments take effect on June 28, 1995. For Part 1910—General

Industry, for § 1910.1001, the start-up dates for compliance for paragraph (d)(2)—initial monitoring, for paragraph (e)—regulated area, for paragraph (f)—methods of compliance, for paragraph (g)—respiratory protection, for paragraph (i)—hygiene facilities, for paragraph (j)—communication of hazards, and for paragraph (l)—medical surveillance are extended to October 1, 1995. For Part 1915—Shipyards, for § 1915.1001, the start-up dates for compliance for paragraph (g)—methods of compliance, for paragraph (h)—respiratory protection, for paragraph (j)—hygiene facilities, for paragraph (k)—communication of hazards, for paragraph (l)—housekeeping, for paragraph (m)—medical surveillance and for paragraph (o)—qualified person are extended to October 1, 1995. For Part 1926—Construction, for § 1926.1101, the start-up dates for compliance for paragraph (g)—methods of compliance, for paragraph (h)—respiratory protection, for paragraph (j)—hygiene facilities, for paragraph (k)—communication of hazards, for paragraph (l)—housekeeping, for paragraph (m)—medical surveillance and for paragraph (o)—competent person are extended to October 1, 1995.

SUPPLEMENTARY INFORMATION: OSHA issued improved asbestos standards for general industry, construction and

shipyards on August 10, 1994 at 59 FR 40964 to better protect workers from lung cancer, asbestosis and other diseases caused by asbestos exposure. The new standards took effect on October 11, 1994 and that date was the start-up date for some provisions such as the new lower exposure limit of 0.1 f/cc. However, various other provisions such as the new medical surveillance, respiratory protection and training provisions and the engineering control requirements had start-up dates from between January 9, 1995 and April 10, 1995.

Various members of the public have requested that OSHA grant more time for the public to comply with some provisions. OSHA is publishing a correction and clarification notice and various compliance and training materials to assist in the understanding of the new standard.

OSHA has concluded that it is appropriate to give the public additional time to implement some of the provisions of the new asbestos standards which may require more time for implementation. Other provisions such as the new exposure limit had a start-up date of October 11, 1994 and again, OSHA is not extending the start-up date of those provisions. In the interim, the provisions of the preexisting asbestos standards remain in effect for those provisions of the new standards whose start-up dates have been extended.

The provisions extended are listed above in the **DATES** section of this preamble. OSHA has concluded that October 1, 1995 is a reasonable time for employers to fully come into compliance with the provisions for
