

which the start-up dates have been extended.

All of the provisions whose start-up dates have been extended will be enforced on October 1, 1995.

OSHA is publishing this as an amendment to the new standards so that the new start-up dates will be codified in the Code of Federal Regulations. OSHA finds that there is good cause to issue this extension without notice and public procedure because such is impractical, unnecessary or contrary to the public interest. It is necessary to issue the extension to permit employers sufficient time to come into full compliance and notice and comment would delay the issuance of the extension until past the new start-up dates. For the same reasons OSHA finds good cause for the extension of the start-up date to take immediate effect.
