#### SUPPLEMENTARY INFORMATION:

##### Office of Air and Radiation

*Title:* Reporting and Recordkeeping Requirements for the New Source Performance Standard (NSPS) for Portland Cement Industry (Subpart F)—(EPA No. 1051.06, OMB No. 2060-0025).

*Abstract:* This ICR is for an extension of an existing information collection in support of the Clean Air Act, as described under the general NSPS at 40 CFR 60.7-60.8 and the specific NSPS, for particulate and visible emissions from portland cement plants, at 40 CFR 60.60. The information will be used by the EPA to direct monitoring, inspection, and enforcement efforts,

thereby ensuring facility compliance with the NSPS.

Owners or operators of all new facilities subject to this NSPS must provide EPA, or a delegated State or local authority, with: (1) Notification of the date of construction or reconstruction, (2) notification of the anticipated and actual dates of the start-up, (3) notification of the date of initial performance test, and (4) a copy of the initial performance test results. Owners and operators of new facilities that must conduct continuous opacity monitoring (COM) will be required to submit: (1) Notification of the COM system demonstration, and (2) notification that COM system data will be used during the initial performance test. Facilities that, as an alternative, are permitted to conduct opacity observations using EPA method 9 must notify EPA of the anticipated date for conducting these observations.

Owners and operators of all facilities must provide EPA, or a delegated State or local authority, with: (1) semiannual reports of malfunctions and excess emissions; and (2) notification of any physical or operational change to their facility which may result in an increase in the regulated pollutant emission rate. All facilities must also maintain records on the facility operation that document: (1) the occurrence and duration of any start-ups, shutdowns, and malfunctions; (2) initial performance test results; (3) all visible emissions from continuous opacity monitoring (COM) or, where applicable, from daily observations taken in accordance with EPA Method 9.

Presently there are an estimated 88 subject facilities with an average annual growth of 4 new facilities over the next three years. All subject facilities must maintain records related to compliance for 2 years.

*Burden Statement:* Public reporting burden for facilities subject to this collection of information is estimated to average 3 hours per year for each respondent, including time for reviewing instructions, searching existing data sources, gathering and maintaining data, and completing and reviewing the collection of information. Public recordkeeping burden for each respondent is estimated to average 69 hours annually. The total annual public reporting burden is estimated to be 6750 hours.

*Respondents:* Businesses or other for-profit organizations.

*Estimated Number of Respondents:* 94.

*Estimated Number of Responses Per Respondent:* 1.

*Frequency of Collection:* Semiannual reporting for existing facilities in non-compliance, with additional one-time reporting requirements for new facilities. Daily recordkeeping for all facilities.

Send comments regarding the burden estimate, or any other aspect of this collection of information, including suggestions for reducing the burden, (please refer to EPA ICR #1051.06 and OMB #2060-0025) to:
