## T.F. Green State Airport; Providence, Warwick, RI; Noise Exposure Map Notice

**AGENCY:** Federal Aviation Administration, DOT.

**ACTION:** Notice.

SUMMARY: The Federal Aviation Administration (FAA) announces its determination that the noise exposure maps submitted by Rhode Island Department of Transportation (RIDOT) for T.F. Green State Airport under the provisions of Title I of the Aviation Safety and Noise Abatement Act of 1979 (Pub. L. 96–193) and 14 CFR Part 150 are in compliance with applicable requirements.

**EFFECTIVE DATE:** The effective date of the FAA's determination on the noise exposure maps is June 15, 1995.

FOR FURTHER INFORMATION CONTACT: John Silva, FAA New England Region, 12 New England Executive Park, Burlington, Massachusetts 01803.

SUPPLEMENTARY INFORMATION: This notice announces that the FAA finds that the noise exposure maps submitted for T.F. Green State Airport are in compliance with applicable requirements of Part 150, effective June 15, 1995.

Under section 103 of the Aviation Safety and Noise Abatement Act of 1979 (hereinafter referred to as "the Act"), an airport operator may submit to the FAA noise exposure maps which meet applicable regulations and which depict noncompatible land uses as of the date of submission of such maps, a description of projected aircraft operations, and the ways in which such operations will affect such maps. The Act requires such maps to be developed in consultation with interested and affected parties in the local community, government agencies, and persons using the airport.

An airport operator who has submitted noise exposure maps that are found by FAA to be in compliance with the requirements of Federal Aviation Regulations (FAR) Part 150, promulgated pursuant to Title I of the Act, may submit a noise compatibility program for FAA approval which sets forth the measures the operator has taken or proposes for the reduction of existing noncompatible uses and for the prevention of the introduction of additional noncompatible uses.

The FAA has completed its review of the noise exposure maps and related descriptions submitted by RIDOT. The specific maps under consideration are Figure 6-1, 1993 Baseline DNL Contours, and Figure 6–7, 1998 Forecast DNL Contours Using Airport Master Plan Forecasts, each of which is published in "Revised Noise Exposure Maps for T.F. Green State Airport", dated April 1995. FAA has determined that these maps for T. F. Green State Airport are in compliance with applicable requirements. This determination is effective on June 15, 1995. FAA's determination on an airport operator's noise exposure maps is limited to a finding that the maps were developed in accordance with the procedures contained in appendix A of FAR Part 150. Such determination does not constitute approval of the applicant's data, information or plans, or a commitment to approve a noise compatibility program or to fund the implementation of that program

If questions arise concerning the precise relationship of specific properties to noise exposure contours depicted on a noise exposure map submitted under section 103 of the Act, it should be noted that the FAA is not involved in any way in determining the relative locations of specific properties with regard to the depicted noise contours; or in interpreting the noise exposure maps to resolve questions concerning, for example, which properties should be covered by the provisions of section 107 of the Act. These functions are inseparable from the ultimate land use control and planning responsibilities of local government. These local responsibilities are not changed in any way under Part

150 or through FAA's review of noise exposure maps. Therefore, the responsibility for the detailed overlaying of noise exposure contours onto the map depicting properties on the surface rests exclusively with the airport operator which submitted those maps, or with those public agencies and planning agencies with which consultation is required under section 103 of the Act. The FAA has relied on the certification by the airport operator, under section 150.21 of FAR Part 150, that the statutorily required consultation has been accomplished.

Copies of the noise exposure maps and of the FAA's evaluation of the maps are available for examination at the following locations:

Federal Aviation Administration, New England Region, Airports Division, 16 New England Executive Park, Burlington, Massachusetts 018033 Rhode Island Airport Corporation, T. F. Green State Airport, Warwick, Rhode Island 02886

Questions may be directed to the individual named above under the heading FOR FURTHER INFORMATION CONTACT.

Issued in Burlington, Massachusetts, June 15, 1995.

## **Notice of Public Conference**

**AGENCY:** Federal Aviation Administration. DOT.

SUMMARY: This notice announces an International Conference on Cabin Safety Research, which is being held by the Federal Aviation Administration (FAA) for the purpose of presenting the agency's Cabin Safety Research Program (CSRP) plan, and soliciting input from the public on the content of the plan. The CSRP and the conference are being jointly sponsored by the Joint Aviation Authorities (JAA) of Europe, and Transport Canada Aviation (TCA).

**DATES:** The Conference is scheduled for Tuesday thru Thursday, November 14–16, 1995. Registration will begin at 7:30 a.m., November 14 and the Conference will begin at 8:30 a.m.

**REGISTRATION:** Persons planning to attend the public conference are encouraged to pre-register by contacting the person identified later in this notice as the contact for further information. Pre-registration is requested by October 13, 1995.
