BILLING CODE 4910-13-M

ACTION: Interim rule.

SUMMARY: This interim rule is NASA's adoption of the Common Rule, under Office of Management and Budget Circular No. A-102, on grants and cooperative agreements to state and local governments.

DATES: This rule is effective July 31, 1995. Comments must be received on or before August 28, 1995.

ADDRESSEES: Submit comments to Rich Kall, Contract Management Division (Code HK), Office of Procurement, NASA Headquarters, Washington, DC 20546. Comments on the paperwork burden should also be addressed to the Office of Information and Regulatory Affairs, Attention: Desk Officer for NASA, Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Rich Kall, (202) 358-0459.

SUPPLEMENTARY INFORMATION:

Background

The NASA Research Grant Handbook (14 CFR part 1260) is the current governing rule for NASA research grants and cooperative agreements. It does not address all types of NASA grants and cooperative agreements. NASA intends to issue regulations on all its grant programs thru new CFR parts. These regulations will cover grants and cooperative agreements with state and local governments, grants and cooperative agreements with educational institutions and other nonprofit organizations, and cooperative agreements with commercial firms.

At this time it is our intention to adopt the Common Rule as it applies under OMB Circular No. A-102. This rule is adopted as an interim rule so that it may be used immediately. The Common Rule has already undergone public comment and NASA is not making significant changes. NASA's interim rule is the same as the common rule adopted by other agencies, for example, the National Science Foundation at 45 CFR part 602, except that the following corrections have been made: (1) In § 1273.3, the definition of "share" has been corrected by removing the phrase "to which the acquisition costs under the grant"; (2) in § 1273.21(e), the phrase "provide cash or a working capital advance basis" in the first sentence has been changed to "provide cash on a working capital advance basis"; (3) in § 1273.30(f), "budget format" has been changed to "budget format"; (4) in § 1273.32(g), "third part" has been changed to "third party"; (5) in § 1273.36(d)(2)(i)(B), "compete effectively and for the business" has been changed to

"compete effectively for the business"; and (6) in § 1273.42(f), "records Unless required" has been changed to "records unless required".

Regulatory Flexibility Act

NASA certifies that this regulation will not have a significant economic impact on a substantial number of small entities under Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*).

Paperwork Reduction Act

The information collection requirements in this interim rule have been submitted to the Office of Management and Budget for review under 44 U.S.C. 3504(h). The Common Rule as adopted by NASA requires certain reporting and recordkeeping of states and local governments in order to determine eligibility for selection and compliance with the rule. The estimated total annual reporting and recordkeeping burden is 1180 hours. The estimated average burden hours per response is 7 hours. The rule proposes quarterly financial reporting and annual reporting for property and technical results. Other reports are required at the conclusion of the agreement or the occurrence of other events. The estimated number of likely respondents is 30 organizations submitting proposals per year resulting in the award of 10 grants per year.
