The staff intends the manual to be a cookbook for preparing environmental

filings. Because time is limited and the material required for the other types of filings is not as extensive and is listed in the regulations, the actual presentation at the session will be limited to Natural Gas Act filings under section 7. However, the manual will cover the other types of filings as well.

Texas Eastern Transmission Corporation; Notice of Availability of the Environmental Assessment for the Proposed Flex-X Riverside Project

June 23, 1995.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an

environmental assessment (EA) on the natural gas facilities proposed by Texas Eastern Transmission Corporation (Texas Eastern) in the above-referenced docket.

The EA was prepared to satisfy the requirements of the National Environmental Policy Act. The staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major Federal action significantly affecting the quality of the human environment.

The EA assesses the potential environmental effects of the construction and operation of the proposed facilities including:

- About 2.86 miles of 36-inch-diameter pipeline replacement in Fayette County, Pennsylvania between the Uniontown and Bedford Compressor Stations (Uniontown Replacement);
- About 2.38 miles of 36-inch-diameter pipeline replacement in Bedford County, Pennsylvania between the Bedford and Chambersburg Compressor Stations (Bedford Replacement);
- About 1.98 miles of 36-inch-diameter pipeline replacement in Bucks
