

Utilities ("NU"), a registered holding company, and four electric utility subsidiary companies of NU ("Utilities"), Western Massachusetts Electric Company, 174 Brush Hill Avenue, West Springfield, Massachusetts, 01809; Holyoke Water Power Company, 174 Brush Hill Avenue, West Springfield, Massachusetts, 01809; The Connecticut Light and Power Company, 107 Selden Street, Berlin, Connecticut, 06037; and Public Service Company of New Hampshire, 1000 Elm Street, Manchester, New Hampshire, 03015, have filed an application under sections 9(a) and 10 of the Act.

The application seeks Commission authorization to engage in electric power brokering and marketing transactions ("Proposed Activities") in the northeastern United States, which includes the New England Power Pool ("NEPOOL"). Under the Proposed Activities, the NU system would match electric power supplies with customers that the NU system is unable to supply, for which the NU system would receive a brokerage fee ("Brokering"). Under the Proposed Activities, the NU system also would act as a principal in electric power sales between buyers and sellers ("Marketing"). Marketing transactions may include fuel-for-power transactions in connection with which the NU system would substitute other sources of electric power for electric power generated by the Utilities.

The Proposed Activities would generally be conducted by NU Service on behalf of the Utilities. Revenues from the Proposed Activities would be credited to reduce the costs of operation of the Utilities. Revenues from Brokering are not expected to exceed \$1 million in 1995 and in 1996. Revenues from Marketing are not expected to exceed \$110 million in 1995 and in 1996.

National Fuel Resources, Inc. (70-8651)

National Fuel Resources, Inc. ("NFR"), 478 Main Street, Buffalo, New York 14202, a wholly-owned nonutility subsidiary of National Fuel Gas Company, a registered public utility holding company, has filed an application-declaration with this Commission under sections 6(a), 7, 9(a) and 10 of the Act.

NFR proposes to engage in electric power marketing and brokering. It is stated that a typical electric power marketing or brokering transaction would involve the purchase of electric power from an electric generator and the resale of that power to another utility (wholesale) or an end-user (retail). The customer or NFR would contract with

an electric utility for power transmission capacity. NFR proposes to engage in long-term power purchases and sales. NFR also proposes to trade in any electricity futures market that may develop to cover its obligations in the market.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

Margaret H. McFarland,

Deputy Secretary.
