

subject merchandise that are entered or withdrawn from warehouse for consumption on or after the publication date of the final results of this administrative review, as provided by section 751(a)(1) of the Act:

(1) The cash deposit rate for the reviewed company shall be the rate established in the final results of this review. If the rate for Wieland is *de minimis* in the final results of review, there will be no cash deposits on shipments from this firm of subject merchandise;

(2) for previously reviewed or investigated companies not listed above, the cash deposit rate will continued to be the company-specific rate published for the most recent period;

(3) if the exporter is not a firm covered in this review, a prior review, or the original less-than-fair-value (LTFV) investigation, but the manufacturer is, the cash deposit rate shall be the rate established for the most recent period for the manufacturer of the merchandise; and

(4) if neither the exporter nor the manufacturer is a firm covered in this or any previous reviews by the Department, the cash deposit rate will be 8.87 percent, the all others rate established in the LTFV investigation.

These deposit requirements, when imposed, shall remain in effect until publication of the final results of the next administrative review.

This notice serves as a preliminary reminder to importers of their responsibility under 19 CFR 353.26 to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during these review periods. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This administrative review and this notice are in accordance with section 751(a)(1) of the Act (19 U.S.C. 1675(a)(1)) and 19 CFR 353.22.

Dated: January 6, 1995.

**Susan G. Esserman,**  
Assistant Secretary for Import Administration.

### Applications for Duty-Free Entry of Scientific Instruments

Pursuant to Section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897; 15 CFR part

301), we invite comments on the question of whether instruments of equivalent scientific value, for the purposes for which the instruments shown below are intended to be used, are being manufactured in the United States.

Comments must comply with 15 CFR 301.5(a)(3) and (4) of the regulations and be filed within 20 days with the Statutory Import Programs Staff, U.S. Department of Commerce, Washington, D.C. 20230. Applications may be examined between 8:30 A.M. and 5:00 P.M. in Room 4211, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C.

**Docket Number: 94-147. Applicant:** Wayne State University, School of Medicine, 540 E. Canfield, Detroit, MI 48201. **Instrument:** Electron Microscope, Model JEM-1010. **Manufacturer:** JEOL, Japan. **Intended Use:** The instrument will be used to visualize microvascular changes in the central nervous system which accompany sequelae of traumatic brain injury (TBI). The microscope provides powerful analytic capabilities for the elucidation of post-TBI sequelae and will provide the necessary ultrastructural characterization to validate each animal model. In addition, the instrument will be used for training of post-doctoral fellows and graduate students in the departments of anatomy, neurology, neurosurgery, pharmacology, psychology, and the bioengineering center. **Application Accepted by Commissioner of Customs:** December 14, 1994.

**Docket Number: 94-149. Applicant:** The Scripps Research Institute, 10666 North Torrey Pines Road, La Jolla, CA 92037. **Instrument:** Microvolume Stopped Flow Spectrofluorimeter, Model SX.17MV. **Manufacturer:** Applied Photophysics, United Kingdom. **Intended Use:** The instrument will be used for typical experiments including the folding of various proteins, both wild type and mutants, such as myoglobin, lysozyme, cytochrome C, etc. **Application Accepted by Commissioner of Customs:** December 16, 1994.

**Docket Number: 94-150. Applicant:** Yale University, Department of Chemistry, 225 Prospect Street, New Haven, CT 06520. **Instrument:** Stopped Flow Adaptor for Optical Spectrometer, Model RX.1000. **Manufacturer:** Applied Biophysics Inc., United Kingdom. **Intended Use:** The instrument will be used to investigate the mechanism of how a series of non-heme iron complexes catalyze the oxidation of simple organic substrates in order to define the pathways that allow alkane, alkene and arene oxidation via small

synthetic catalysts that mimic the electronic environment of the enzyme methane monooxygenase. **Application Accepted by Commissioner of Customs:** December 20, 1994.

**Docket Number: 94-151. Applicant:** National Institute of Standards and Technology, B364, Bldg. 222, Gaithersburg, MD 20899. **Instrument:** Multicollector System for Mass Spectrometer. **Manufacturer:** Finnigan MAT, Germany. **Intended Use:** The instrument will be used to study isotopic fractionation effects that are associated with the collection, purification, and storage of atmospheric xenon, and use the information to improve the identification, discrimination and apportionment of natural and anthropogenic sources of atmospheric xenon. In these studies, sample xenon, derived from a mixture, will be measured against the pure source xenon using an existing automated dual-inlet source. **Application Accepted by Commissioner of Customs:** December 21, 1994.

**Docket Number: 94-152. Applicant:** University of Virginia, Materials Science and Engineering, McCormick Rd., Thornton Hall, Charlottesville, VA 22903. **Instrument:** Electron Microscope, Model JEM 2010F. **Manufacturer:** JEOL, Japan. **Intended Use:** The instrument will be used to study the microstructure of metals, metal alloys, ceramics, high-temperature superconductors, polymers, zeolites, minerals, and soils and clays. It will be used to measure particle/crystallite size and morphology, crystal structure, chemical composition, long/short-range ordering, number and extent of defects, d-spacings or crystallographic planes. In addition, the instrument will be used on a one-on-one basis for training of faculty, staff, and graduate students. **Application Accepted by Commissioner of Customs:** December 23, 1994.

### Pamela Woods,

Acting Director, Statutory Import Programs Staff.

### Trade Fair Certification Applications: International Trade Fairs in Big Emerging Markets

**AGENCY:** International Trade Administration, Commerce.

**ACTION:** Notice that Commerce is interested in accepting applications from qualified U.S. firms to be certified, under the Trade Fair Certification
