ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 81

[MN36-2-7085; FRL-5252-3]

Designation of Areas for Air Quality Planning Purposes; Minnesota

AGENCY: Environmental Protection Agency (USEPA).

ACTION: Final rule, correction.

SUMMARY: On May 31, 1995, the USEPA published a direct final rule approving the redesignation requests to attainment for particulate matter in the Rochester

portion of Olmsted County and sulfur dioxide in the Air Quality Control Region 131 Twin Cities and Pine Bend areas (excluding the St. Paul Park area). The revised *Code of Federal Regulations (CFR)* § 81.324 redesignation table for sulfur dioxide identified the remaining nonattainment area as being part of Scott and Washington Counties. The table should have shown the remaining nonattainment area as being part of Dakota and Washington Counties. Also, the western boundary identifier of the Dakota County part of the nonattainment area is being corrected. The USEPA regrets any inconvenience these errors may have caused.

EFFECTIVE DATE: This correction rulemaking becomes effective on July 3, 1995.
