7. Section 204.7107 is revised to read
as follows:

**204.7107 Contract accounting
classification reference number (ACRN).**

(a) When a contract contains more than one accounting classification citation, contracting offices shall use ACRNs. Assigning the ACRNs is the responsibility of the contracting office issuing the contract, basic ordering agreement, or blanket purchase agreement. This authority shall not be delegated. If more than one office will use the contract (e.g., ordering officers, other contracting officers), the contract must contain instructions for assigning ACRNs.

(b) ACRNs are used to process certain contract data through the Military Standard Contract Administration Procedures (MILSCAP) system. The MILSCAP system uses the ACRN to relate certain contract administration records to the accounting classification citation used to obligate funds on the contract. Among these records are the accounting classification trailer record, the supplies schedules data record, and the services line item data record. ACRNs are also used to associate the various record formats of the contract payment notice as described in chapter 9 of the MILSCAP Manual, DoD 4000.25-5-M.

(c) *Procedures for establishing ACRNs.* ACRNs consist of a two position alpha or alpha/numeric code assigned to each discrete accounting classification citation within each contract. ACRNs shall be established in accordance with the following guidelines:

(1) Do not use the letters I and O.

(2) In no case shall an ACRN apply to more than one accounting classification citation, nor shall more than one ACRN

be assigned to one accounting
classification citation.

(d) *Using the ACRN in the contract.*

(1) Show the ACRN as a detached prefix to the accounting classification citation in the accounting and appropriation data block or, if there are too many accounting classification citations to fit reasonably in that block, in section G (Contract Administration Data).

(2) ACRNs need not prefix accounting classification citations if the accounting classification citations are present in the contract only for the transportation officer to cite to Government bills of lading.

(3) If the contracting officer is making a modification to a contract and using the same accounting classification citations, which have had ACRNs assigned to them, the modification need cite only the ACRNs in the accounting and appropriations data block or on the continuation sheets.

(e) *Showing the ACRN in the contract.* If there is more than one ACRN in a contract, all the ACRNs will appear in several places in the schedule (e.g., ACRN:AA).

(1) *Ship-to/mark-for block.* Show the ACRN beside the identify code of each activity in the ship-to/mark-for block unless only one accounting classification citation applies to a line item or subline item. Only one ACRN may be assigned to the same ship-to/mark-for within the same contract line or subline item number unless multiple accounting classification citations apply to a single nonseverable deliverable unit such that the item cannot be related to an individual accounting classification citation.

(2) *Supplies/services column.* (i) If only one accounting classification citation applies to a line item or a subline item, the ACRN may be shown

in the supplies/services column near the item description.

(ii) If more than one accounting classification citation applies to a single contract line item, identify each assigned ACRN and the amount of associated funds using informational subline items (see 204.7104-1(a)).

(3) *Payment instructions.* (i) When a contract line item is funded by multiple accounting classification citations, the contracting officer shall provide adequate instructions in section G (Contract Administration Data), under the heading "Payment Instructions for Multiple Accounting Classification Citations," to permit the paying office to charge the accounting classification citations assigned to that contract line item (see 204.7104-1(a)) in a manner that reflects the performance of work on the contract. If additional accounting classification citations are subsequently added, the payment instructions must be modified to include the accounting classification citations.

(ii) Payment instructions shall provide a methodology for the paying office to assign payments to the appropriate accounting classification citation(s), based on anticipated contract work performance. The method established should be consistent with the reasons for the establishment of the line items. The payment method may be based upon a unique distribution profile devised to reflect how the funds represented by each of the accounting classification citations support contract performance. Payment methods that direct that payments be made from the earliest available fiscal year funding sources, or that provide for proration across accounting classification citations assigned to the line item, or a combination thereof, may be used if that methodology reasonably reflects how
