### National Toxicology Program (NTP) Board of Scientific Counselors' Meetings; Announcement of NTP Draft Technical Reports Projected for Public Review From June 1995 Through Summer 1998

To earlier inform the public and allow interested parties to comment or obtain information on long-term toxicology and carcinogenesis studies prior to public peer review, the National Toxicology Program (NTP) again publishes in the **Federal Register** a current listing of draft Technical Reports projected for evaluation by the NTP Board of Scientific Counselors' Technical Reports Review Subcommittee during their next seven meetings from June 1995 through the summer of 1998. We plan to continue updating the listing with announcements in the **Federal Register** once or twice a year. The next meeting

dates are June 20-21 and December 5-6, 1995. Specific dates for 1996, 1997, and 1998 meetings will be established at a later time.

The attached Table 1 lists draft Technical Reports for long-term studies on chemicals within known or approximate dates of reviews and includes Chemical Abstracts Service (CAS) registry numbers, primary use, route of administration, species, exposure levels, and NTP report numbers (if assigned).

Technical Reports of short-term toxicity studies are currently reviewed by mail; however, they may be reviewed in open meetings when necessary. The attached Table 2 lists the draft Technical Reports of short-term toxicity studies tentatively projected for review by mail from May 1995 to October 1998 and also includes Chemical Abstracts Service (CAS) registry numbers, primary use, route of administration, species, exposure levels, and NTP report numbers (if assigned).

Those interested in having more information about any of the studies listed in this announcement should contact Central Data Management as early as possible by telephone or by mail at: MD-A0-01, NIEHS, P.O. Box 12233, Research Triangle Park (RTP), North Carolina 27709 (919/541-3419). The program would welcome receiving toxicology and carcinogenesis data from completed, ongoing or planned studies by others as well as current production data, human exposure information, and use and use patterns.

The Executive Secretary, Dr. Larry G. Hart, P.O. Box 12233, Research Triangle Park, North Carolina 27709, telephone 919/541-3971, FAX 919/541-0719 will furnish final agendas and other program information prior to a meeting, and summary minutes subsequent to a meeting.

Dated: June 16, 1995.
