Naval Research Advisory Committee; Closed Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (5 U.S.C. App. 2), notice is hereby given that the Naval Research Advisory Committee will meet on July 17 through 21, and July 24 through 28, 1995, at the Naval Command, Control and Ocean Surveillance Center, Research, Development, Test and Evaluation Division, San Diego, California. The session on July 17 will commence at 8:30 a.m. and terminate at 5 p.m.; the sessions on July 18 through 21, and July 24 through 27, 1995, will commence at 8 a.m. and terminate at 5 p.m.; and the session on July 28, 1995 will commence at 8:30 a.m. and terminate at 11 a.m. All sessions of these meetings will be closed to the public.

The purpose of these meetings is to discuss basic and advanced research. All sessions of the meetings will be devoted to briefings, discussions and technical examination of information on force structure and ship concepts as they relate to reduced manning initiatives, and the impact of science and technology on life cycle cost

initiatives of current Department of the Navy systems and projected acquisition programs. Premature public disclosure of this information would be likely to significantly frustrate implementation of proposed policy actions by the Department of the Navy. The information involved is specifically authorized by Executive order to be withheld from the public if the agency determines it to be in their best interest. It therefore is appropriate that all sessions of the meetings be closed to the general public. The agency protected information to be discussed is so inextricably intertwined with unclassified matters as to preclude opening any portion of the meetings. Accordingly, the Secretary of the Navy has determined in writing that the public interest requires that all sessions of the meetings be closed to the public because they will be concerned with matters listed in section 552b(c)(9) (B) of title 5, United States Code.

For further information concerning these meetings contact: Ms. Diane Mason-Muir, Office of Naval Research, 800 North Quincy Street, Arlington, VA 22217-5660, telephone number: (703) 696-4870.

Dated June 23, 1995.
