BILLING CODE 4410-09-M

National Institute of Corrections

Cooperative Agreement Award

AGENCY: National Institute of Corrections, Justice.

ACTION: Notice.

SUMMARY: This notice is to provide information to the public concerning a planned cooperative agreement award from the National Institute of Corrections, Department of Justice to Policy Research, Inc. (PRI) to establish a center to improve knowledge and services related to improving mechanisms for the acquisition and application of high quality knowledge about individuals in contact with the criminal justice system dually diagnosed with mental illness and substance abuse in order to improve the full range of interventions possible, including sanctioning practices, management/supervision strategies, and treatment of dually diagnosed substance abuse and mental illness with these individuals. This is not a formal request for applications.

DATES: The deadline for submission of the application is 4 p.m., E.S.T., August 4, 1995.

ADDRESSES: The application is to be submitted in original with 6 copies to the National Institute of Corrections, Attention Mr. George Keiser, Chief, Division of Community Corrections, National Institute of Corrections, 500 First Street N.W., Washington D.C. 20534.

FOR FURTHER INFORMATION CONTACT: Mr. George Keiser, 202-307-3995, ext. 135.

SUPPLEMENTARY INFORMATION: Authority: This cooperative agreement award will be made under authority of NIC's statutory authorities as set forth in Title 18 of the U.S. Code at 4351-4352. The cooperative agreement mechanism is

being employed to fund this activity, because it is NIC's intent to be actively involved and to provide support for a public purpose which requires highly specialized expertise and a unique set of collaborative alliances to reach the projects's goals. This cooperative agreement is not subject to review as governed by Executive Order 12372, Intergovernmental Review of Federal Programs.

Availability of Funds

Approximately \$906,000 will be available in Fiscal Year 1995 to fund this project for the first of 3 years. It is expected that the project will begin on or about September 15, 1995 and based on funding availability and first year results, additional funding is anticipated for up to 2 subsequent years.

The National Institute of Corrections will administer the cooperative agreement and will coordinate with program officials of the Substance Abuse and Mental Health Services' Center for Substance Abuse Treatment and the Center for Mental Health Services in the management, oversight, and evaluation of project activities.

Purpose

Research has shown a high degree of dual diagnosis or co-morbidity of addictive and mental disorders (up to 80%) among offender populations resulting in a need to establish an integrated network for knowledge development, analyses of state-of-the-art practices, and knowledge application and technical assistance related to techniques for appropriately intervening, managing/supervising and treating persons in the criminal justice system who are dually diagnosed with substance abuse and mental illness. There is a need to establish an expert knowledge and practice base through the creation of a center that serves as a resource to enhanced collaboration among mental health, substance abuse treatment, and criminal justice professionals, consumers, family members, and State and local officials.

This project will increase the ability to effectively acquire, adapt, and apply existing knowledge and practice that

will result in system change and improved mental health and substance abuse interventions, outcomes and management with dually diagnosed individuals in contact with the criminal justice system.

Through a cooperative agreement with a detailed strategic plan that (1) builds upon and augments the work already accomplished with the earlier jail population initiative of NIC and CMHS and (2) addresses how additional correction system target populations are to be reached over the lifetime of the award, the project through the creation of a center will address the following goals:

Goal 1: Create a commitment and common understanding regarding the need to share responsibility for the treatment, care, and management/supervision of dually diagnosed individuals who have contact across the Criminal Justice System, as well as the Mental Health Care System, and the Substance Abuse Treatment System.

Goal 2: Across all 3 systems, decrease stigmatization of those individuals with dual diagnosis of substance abuse and mental illness.

Goal 3: Increase individual jurisdictions' abilities to appropriately intervene and use of a range of graduated sanctions, with individuals dually diagnosed with substance abuse and mental illness.

Goal 4: Develop knowledge application strategies and opportunities to improve the treatment and management/supervision of substance abuse and mental illness of dually diagnosed offenders by promoting system change within each and across all three systems.

Objectives

Specifically, PRI will prepare an application for a center that will include cost, timeframes, and anticipated outcomes to:

—Consolidate, synthesize and assess promising research and program evaluation information identifying promising practices ready for dissemination and knowledge application to a wide range of
