BILLING CODE 3510-22-F

[I.D. 062695E]

Mid-Atlantic Fishery Management Council; Meetings

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meetings.

SUMMARY: The Mid-Atlantic Fishery Management Council's Scientific and Statistical Committee (SSC), Surf Clam and Ocean Quahog Industry Advisory Subcommittee, and Surf Clam and Ocean Quahog Committee will hold public meetings.

DATES: The meetings will be held on July 18, 1995, from 10:00 a.m. until 3:00 p.m.

ADDRESSES: The meetings will be held at the Holiday Inn, 45 Industrial Highway, Essington, PA; telephone: 610-521-2400.

Council address: Mid-Atlantic Fishery Management Council, 300 S. New Street, Dover, DE 19901.

FOR FURTHER INFORMATION CONTACT: David R. Keifer, Executive Director, Mid-Atlantic Fishery Management Council; telephone: 302-674-2331.

SUPPLEMENTARY INFORMATION: The purpose of these meetings is to prepare recommendations for the Mid-Atlantic Council for surf clams and ocean quahogs for 1996.

The SSC will meet beginning at 10:00 AM. The Surf Clam and Ocean Quahog Industry Advisory Subcommittee meeting will follow the SSC meeting, and the Surf Clam and Ocean Quahog Committee meeting will follow the Surf Clam and Ocean Quahog Industry Advisory Subcommittee meeting. The final meeting is scheduled to adjourn by 3:00 PM.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Joanna Davis on (302) 674-2331 at least 5 days prior to the meeting date.

Dated: June 29, 1995.

Richard H. Schaefer,

Director, Office of Fisheries Conservation and Management, National Marine Fisheries Service.

BILLING CODE 3510-22-F

[I.D. 062995B]

Endangered Species; Permits

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Receipt of an application for modification 3 to scientific research and enhancement permit 822 (P500B).

SUMMARY: Notice is hereby given that the Fish Passage Center (FPC) in Portland, Oregon has applied in due form for a modification to their permit that authorizes a take of listed species for the purpose of scientific research and enhancement.

DATES: Written comments or requests for a public hearing on this application must be received on or before August 7, 1995.

ADDRESSES: The application and related documents are available for review in the following offices, by appointment:

Office of Protected Resources, F/PR8, NMFS, 1315 East-West Highway, Silver Spring, MD 20910-3226 (301-713-1401); and

Environmental and Technical Services Division, F/NWO3, NMFS, 525 NE Oregon Street, Portland, OR 97232-4169 (503-230-5400).

Written comments or requests for a public hearing on this application should be submitted to the Chief, Endangered Species Division, Office of Protected Resources.

SUPPLEMENTARY INFORMATION: FPC requests the modification to their permit under the authority of section 10 of the Endangered Species Act of 1973 (ESA) (16 U.S.C. 1531-1543) and the NMFS regulations governing listed fish and wildlife permits (50 CFR parts 217-227).

Permit 822 (P500B) authorizes an annual take of juvenile, threatened, naturally-produced, Snake River spring/summer chinook salmon (*Oncorhynchus tshawytscha*); juvenile, threatened, Snake River fall chinook salmon (*Oncorhynchus tshawytscha*); and juvenile, endangered, Snake River sockeye salmon (*Oncorhynchus nerka*) associated with research sampling activities conducted in accordance with the Smolt Monitoring Program. The research sampling activities occur at Bonneville, John Day, and McNary

Dams on the Columbia River; Lower Monumental, Little Goose, and Lower Granite Dams on the Snake River; and at the Salmon, Grande Ronde, Clearwater, and Snake River traps.

For modification 3, FPC requests an increase in the annual take of juvenile, listed, spring/summer chinook salmon and juvenile, listed, sockeye salmon. Due to the fact that the progeny of listed Snake River salmon are considered ESA listed fish, even if propagated in a hatchery, FPC has redetermined the annual numbers of listed fish handled, and the corresponding indirect mortalities, associated with their research activities. In addition, the annual number of sockeye/kokanees observed at Lower Granite Dam, as compared with historic passage data, has increased. The annual increase of migrating sockeye/kokanees is due to an increase in the number of true migratory sockeye leaving Redfish Lake in Idaho, as a result of the Idaho Department of Fish and Game's work at rebuilding the run, and large numbers of resident kokanee being washed out of Dworshak Reservoir in Idaho during periods of spill at Dworshak Dam. Modification 3 is requested for the duration of the permit. Permit 822 expires on December 31, 1997.

Those individuals requesting a hearing on this modification application should set out the specific reasons why a hearing would be appropriate (see **ADDRESSES**). The holding of such a hearing is at the discretion of the Assistant Administrator for Fisheries, NOAA. All statements and opinions contained in this application summary are those of the applicant and do not necessarily reflect the views of NMFS.

Dated: June 29, 1995.

Marta Nammack,

Acting Chief, Endangered Species Division, Office of Protected Resources, National Marine Fisheries Service.
