Proposed Data Collections Available for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Health Resources and Services Administration (HRSA) will publish periodic summaries of proposed projects. To request more information on the proposed project or to obtain a copy of the data collection plans and instruments, call the HRSA Reports Clearance Officer on (301) 443-1129.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Projects: 1. Evaluation of the Effectiveness and Impact of Community Health Centers—New—A mail survey will be conducted of fifty community health centers (CHCs) to collect information on characteristics of health centers (e.g., patients, services, staffing, financing and participation in managed care) during 1992. The survey is one component of an evaluation of community health centers that examines utilization and expenditures among Medicaid CHC users and non-users, using a sample of 50 health centers in 10 states. The survey will collect data that supplement information already available from health center annual reports, reviews and grant applications. Together with the secondary data, the survey results provide the basis for characterizing attributes of the CHC delivery system and examining whether features of the CHC delivery model assist in explaining observed differentials in use and expenditures among CHC users. The survey will be mailed to CHC Executive Directors, who are expected to delegate portions of the questionnaire to staff for completion. Burden estimates are as follows:

Number of respondents	Number of responses per respondent	Average burden per response (hours)
50 CHCs	1	10-14 hours*

* Burden estimate is based on previous experience with similar surveys of CHCs. Estimates will be refined based on pilot test.

2. Data Collection and Reporting Requirements for Healthy Start—Extension and Revision—Patient records and aggregate data are being collected from Healthy Start grantees in order to evaluate the overall effectiveness of the initiative and the value of specific interventions for varying groups of target women. A number of minor revisions have been proposed based on consultations with grantees regarding availability and utility of the data. Burden estimates are as follows:

Number of respondents	Responses per respondent	Average burden per response (hours)
Patient Data	1	200
Midyear Reports	1	5
Aggregate Reports	1	40

NOFA for Public and Indian Housing Youth Development Initiative Under the Family Investment Centers Program: Amendment

AGENCY: Office of the Assistant Secretary for Public and Indian Housing, HUD.

ACTION: Amendment of NOFA.

SUMMARY: This Notice amends a NOFA that was published in the **Federal Register** on May 30, 1995, to announce

a set-aside HOPE in Youth Demonstration Program involving two housing agencies in Los Angeles, California. As a result, the total remaining funds to be awarded under the criteria set out in the NOFA is \$9 million. In addition, this amendment corrects the address of HUD's Philadelphia, Pennsylvania, field office, as listed in the NOFA.
