

Description: Requires metal and nonmetal mine operators to develop a rock burst control plan within 90 days after a rock burst has been experienced. Plans are required to be made available to the Mine Safety and Health Administration inspectors and are used by the mine operator for work assignments to assure miner safety and to schedule correction work..

Patrick Skees,

Acting Director IRM Policy.

BILLING CODE 4510-26-P

Job Training Partnership Training Act Indian and Native American Reporting Revisions for Program Year 1995

AGENCY: Office of the Secretary, Labor.

SUMMARY: The Director, Office of Information Resources Management Policy, invites comments on the following proposed expedited review information collection request as required by the Paperwork Reduction Act of 1980, as amended.

DATES: This expedited review is being requested in accordance with the Act, since allowing for the normal review period would adversely affect the public interest. Approval by the Office of Management and Budget has been requested by August 31, 1995.

ADDRESSES: Written comments should be addressed to the Office of Management and Budget, Office of Information and Regulatory Affairs, Attention: Dan Chenok, Desk Officer, 725 17th St., N.W., Room 10235, New Executive Office Building, Wash., DC 20503. Requests for copies of the proposed information collection request should be addressed to Theresa M. O'Malley, Department of Labor, 200 Constitution Ave., N.W., Room N-1301, Wash., DC 20210.

FOR FURTHER INFORMATION CONTACT: Theresa M. O'Malley, (202) 219-5095. Individuals who use a telecommunications device for the deaf (TTY/TDY) may call (202) 219-4720 between 1:00 p.m. and 4:00 p.m. Eastern time, Monday through Friday.

SUPPLEMENTARY INFORMATION: Section 3517 of the Paperwork Reduction Act of 1980 (44 U.S.C. Chapter 3517) requires that the Director of OMB provide interested persons an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with the agency's

ability to perform its statutory obligations.

The Director, Office of Information Resources Management Policy, publishes this notice simultaneously with the submission of this request to OMB. This notice contains the following information:

Type of Review: Expedited.

Title: JTPA Indian and Native American Reporting Revisions for Program Year 1995.

Frequency of Response: Annually.

Affected Public: Not-for-profit; State, Local or Tribal Government.

Number of Respondents: 1,920.

Estimated Time per Response: ranges from 3 mins.-22 hours.

Total Annual Burden Hours: 38,032.

Respondents Obligation to Reply: Mandatory.

Description: In accordance with our partnership with the Native American and Indian community, and in consultation with the statutorily established Native American Employment and Training Council, the Department has agreed not to proceed with the implementation of the Standard Participant Information Reporting (SPIR) for Program Year 1995. For at least one more Program Year, the Department will continue to pilot the SPIR approach with selected JTPA, Section 401 grantees and to share feedback with the Council and the grantee community at large. ETA will revisit the possible implementation of the SPIR for Program Year 1996 in partnership with the Indian and Native American community.

In the interim, the streamlining of the current reporting forms is consistent with transition to the SPIR approach. The Form 8604 (Annual Status Report) is being modified to eliminate certain elements consistent with the impact of the JTPA amendments, and to consolidate and clarify others based on the experience and advice of the Council and the grantee community. The Form 8603 (Program Status Summary) and Form 8601 (Program Planning Summary) have been modified slightly to be consistent with the changes in Form 8604. The Form 8600 (Budget Information Summary) and Form 8602 (Financial Status Report) have only been changed to reflect the amendments.

Together these forms will be used to manage the national programs authorized under Section 401 of the JTPA. These documents are the principal sources of program plans and performance data. They form the basis for the aware of funds, Federal oversight and reports to Congress.

Signed at Washington, D.C. this 30th day of June 1995.

Cheryl A. Robinson,

Acting Departmental Clearance Officer.

BILLING CODE 4510-30-M

Mine Safety and Health Administration

Petitions for Modification

The following parties have filed petitions to modify the application of mandatory safety standards under section 101(c) of the Federal Mine Safety and Health Act of 1977.

1. Keystone Coal Mining Corporation

[Docket No. M-95-86-C]

Keystone Coal Mining Corporation, 655 Church Street, Indiana, Pennsylvania 15701 has filed a petition to modify the application of 30 CFR 75.380(d)(3) (escapeways; bituminous and lignite mines) to its Emilie No. 1 Mine (I.D. No. 36-00821) located in Armstrong County, Pennsylvania. The petitioner proposes to continue utilizing the passable escapeway as it presently exists for approximately 8 to 9 feet as an alternative to enhancing the height of the overcast area due to geologic conditions of that area of the mine. The petitioner states that the main intake escapeway (E1) for the Emilie No. 1 Mine is directed out of the Emilie No. 2 Track Slope; that petitioner is unable to maintain the clearance to the height of the coal seam at one corner of the intake overcast located three crosscuts in by the slope bottom due to geologic conditions; that the clearance at the immediate corner of the overcast is 24 to 29 inches in height and that moving away from the immediate corner towards the center of the overcast and down the ramp, the height increases to 42 inches, which is the height of the coal seam; and that the total linear distance is 9 feet where the travelway is less than the seam height. The petitioner also states that application of the standard would result in a diminution of safety to the miners because a much greater distance would have to be traveled along a different escape route. In addition, the petitioner asserts that the proposed alternative method would provide at least the same measure of protection as would the mandatory standard.

2. Keystone Coal Mining Corporation

[Docket No. M-95-87-C]

Keystone Coal Mining Corporation, 655 Church Street, Indiana, Pennsylvania 15701 has filed a petition to modify the application of 30 CFR
