

This is the request to extend data collection on items such as HIV status, drug susceptibility results, occupation, drug use, initial drug therapy and type of health care provider. This data will enable CDC to study and devise control methods. Respondents: State, Local or Tribal Government; Number of Respondents: 117; Number of Responses per Respondent: 1; Average Burden per Response: 41.03 hrs.; Estimated Total Annual Burden: 4,800 hours. Send comments to James Scanlon, Office of the Assistant Secretary for Health, Room 737-F, Humphrey Building, 200 Independence Ave., S.W., Washington, D.C. 20201.

8. Health Assessment of Persian Gulf War Veterans from Iowa—New—The information obtained from this survey is needed in order to determine the prevalence of adverse health outcomes among Persian Gulf veterans who listed Iowa as their home of record. The study will provide a scientific basis to assist CDC and other governmental agencies in determining the need and direction of future studies. A random sample of Persian Gulf War veterans will be compared with Vietnam era controls. Respondents: Individuals or households; Number of Respondents: 3000; Number of Responses per Respondent: 1.05; Average Burden per Response: 1.23 hr.; Estimated Total Annual Burden: 3883 hours. Send comments to Allison Eydt, Human Resources and Housing Branch, New Executive Office Building, Room 10235, Washington, D.C. 20503.

9. Pilot of Local Community Health Survey—New—This project will pilot test a telephone survey questionnaire for use in collecting comparable health behavior information at the local health department or community level. The pilot will assess the costs of using a list-assisted random digit dialing sample design, evaluate the collection of information for children, and monitor the utility of the data to participating local health departments. Respondents:

Individuals or households; Number of Respondents: 7800; Number of Responses per Respondent: 1; Average Burden per Response: .29 hr.; Estimated Total Annual Burden: 2276 hours. Send comments to Allison Eydt, Human Resources and Housing Branch, New Executive Office Building, Room 10235, Washington, D.C. 20503.

10. Measuring the Impact of Minors' Access Restrictions on Tobacco Use and Behavior by Youth—New—This study will provide new information on the relationships between enforcement of minors' access to tobacco laws, tobacco vendor perceptions and actions, and use of tobacco by youth. Information from vendors, enforcement officials, and other local community leaders will be collected. Measurement of tobacco use by minors will be obtained from the existing Youth Risk Behavior Survey. Respondents: Business or other for-profit; Number of Respondents: 3320; Number of Responses per Respondent: 1; Average Burden per Response: .322 hr.; Estimated Total Annual Burden: 1070 hours. Send comments to Allison Eydt, Human Resources and Housing Branch, New Executive Office Building, Room 10235, Washington, D.C. 20503.

11. Evaluation of CDC/WONDER/PC for Public Health Decision Making—New—CDC is requesting approval for three-related evaluations of Wonder/PC, the system which provides easy access to CDC data sets, public health reports and guidelines, and electronic mail. It was designed to enhance the ability of distally-located public health employees to access important information for use in the public health decision making practice. The proposed evaluation focuses on whether CDC WONDER has improved how public health employees access and incorporate information into their work. Respondents: Individuals or households; Business or other for-profit; State, Local or Tribal Government; Number of Respondents: 1500; Number of Responses per Respondent: 1; Average Burden per Response: .21 hr.;

Estimated Total Annual Burden: 230 hours. Send comments to Allison Eydt, Human Resources and Housing Branch, New Executive Office Building, Room 10235, Washington, D.C. 20503.

12. Inventory of Services and Funding Sources for Programs Designed to Prevent Violence Against Women—New—CDC proposes conducting surveys of federal and state agencies that fund programs in domestic violence prevention, and the State coalitions on domestic violence to determine what types of programs are being conducted at State and local levels and funding sources for such programs. Respondents: Not-for-profit institutions; Federal Government; State, Local or Tribal Government; Number of Respondents: 300; Number of Responses per Respondent: 1; Average Burden per Response: 1.25 hrs.; Estimated Total Annual Burden: 375 hours. Send comments to Allison Eydt, Human Resources and Housing Branch, New Executive Office Building, Room 10235, Washington D.C. 20503.

13. Wilms' Tumor Study—New—Wilms' Tumor, as a type of renal cancer, is among the priority health conditions identified by the ATSDR to assist in directing its applied research programs examining the relationship between hazardous substances exposures and health impacts. Results of other Wilms' Tumor studies have linked environmental and occupational hazardous substances exposures and these forms of cancer. The proposed study, focusing on cases identified through the National Wilms Tumor Study group, and including a randomly-selected control group, is designed to examine the potential impact of exposure to selected hazardous waste substances on Wilms' Tumor occurrence. Send comments to Allison Eydt, Human Resources and Housing Branch, New Executive Office Building, Room 10235, Washington D.C. 20503.

	No. of respondents	No. of responses/respondent	Average burden/response (hrs.)
Screener	3637	1	.05
Interview	540	1	.75

Estimated total annual burden—587 hours.

14. Evaluation of the Domestic Violence Prevention Module at the UCLA Medical School of Medicine—New—The School of Medicine mandates routine evaluations of each of its core courses, of which the Domestic

Violence is one. Besides the routine test of knowledge and skills that students receive on a regular basis, CDC proposes to have students and faculty complete process evaluation forms after two of the four sessions to assess their satisfaction

with the course, as well as the implementation of it. Respondents: Individuals or households. Send comments to James Scanlon, Office of the Assistant Secretary for Health, Room 737-F, Humphrey Building, 200
