

certain circumstances, special statistical services requested by a person, firm or corporation. Part 3 also allows the Director to charge a fee for providing these services. However, these authorities are specified clearly in Section 306(b)(4) of the Public Health Service Act. It is not necessary, therefore, to include the same authorities in regulations.

Grants for Health Education—Risk Reduction

Health Education and Risk Reduction grants were incorporated into the Preventive Health and Health Services Block Grant (42 U.S.C. 300w) in 1981. Therefore, separate regulations at 42 CFR Part 51g are not necessary.

Vaccines; Information and Education

The National Childhood Vaccine Injury Act of 1986 (Pub. L. 99-660) added to the Public Health Service Act a new Section 2126 that required the Secretary of Health and Human Services to develop by rule extensive vaccine information materials for distribution by health care providers to the legal representatives of any child receiving particular vaccines. However, because of concerns expressed by providers and others about the length and readability of the vaccine information materials and the lengthy development and revision process required by the rulemaking process, the Department of Health and Human Services proposed legislation to provide for simplification of the vaccine information materials. In section 708 of Public Law 103-183, the Preventive Health Amendments of 1993, Congress revised Section 2126 to, among other things, delete the requirement for development and revision of the vaccine information materials by rulemaking. This final rule appeals the regulations contained in 42 CFR Part 110 and the vaccine information materials currently contained in Appendix A of 42 CFR Part 110.

New vaccine information materials that were developed under the revised Section 2126 and must now be used were published in the **Federal Register** on June 20, 1994 (59 FR 31888).

Camera-ready copies of the new materials can be obtained by contacting the immunization program in the appropriate State health department.
