36 CFR Part 13

RIN 1024-AC19

National Park System Units in Alaska

AGENCY: National Park Service, Interior.

ACTION: Proposed rule; re-opening of public comment period.

SUMMARY: The proposed rule would establish National Park Service regulations to implement section 1307 of the Alaska National Interest Lands Conservation Act (ANILCA). The proposed regulations are necessary to establish procedures for administering the statutory rights and preferences established by section 1307 for certain persons to conduct revenue-producing visitor services in certain units of the National Park System located in the State of Alaska. Particularly, this rule would provide guidance in the solicitation, award and renewal of Alaska visitor service authorizations. This rulemaking, the substance of which was printed as a proposed rule on April 25, 1995 (60 FR 20374), extends the comment period for another 60 days to allow additional review and comment by interested groups and persons.

DATES: Comments will be accepted until September 11, 1995.

ADDRESSES: Comments should be addressed to Regional Director, Alaska Region, National Park Service, 2525 Gambell Street, Room 107, Docket 1307, Anchorage, AK 99503-2892.

Approval and Promulgation of Implementation Plans; Illinois

AGENCY: Environmental Protection Agency (USEPA).

ACTION: Proposed rule.

SUMMARY: The USEPA proposes to approve the State Implementation Plan (SIP) revision request submitted by the State of Illinois on July 29, 1994. This submittal addresses the Federal Clean Air Act requirement to submit contingency measures for particulate matter with an aerodynamic diameter less than or equal to a nominal 10 micrometers (PM) for the areas designated as nonattainment for the PM National Ambient Air Quality Standards. In the final rules section of this **Federal Register**, the USEPA is approving this action as a direct final rule without prior proposal because USEPA views this as a noncontroversial action and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to that direct final rule, no further activity is contemplated in relation to this proposed rule. If USEPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on the proposed rule. USEPA will not institute a second comment period on this action. Any parties interested in commenting on this document should do so at this time.

DATES: Comments on this proposed rule must be received on or before August 14, 1995.

Approval and Promulgation of Implementation Plans; Illinois

AGENCY: Environmental Protection Agency (USEPA).

ACTION: Proposed rule.

SUMMARY: The United States Environmental Protection Agency (USEPA) proposes to approve the March 28, 1995, Illinois State Implementation Plan (SIP) revision request which consists of a variance from 35 Illinois Administrative Code (IAC) 218.586, the regulations for Stage II vapor recovery, for P & S, Incorporated's (P & S) facility located in Wood Dale, DuPage County, Illinois. This variance begins on November 1, 1994, and will ultimately expire on April 1, 1996. The granting of this variance is approvable because P & S has demonstrated that immediate compliance with the requirements at issue would impose an arbitrary and unreasonable hardship. In the final rules section of this **Federal Register**, the USEPA is approving this action as a direct final rule without prior proposal because USEPA views this as a noncontroversial action and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If USEPA receives comments adverse to or critical of the approval discussed above, USEPA will withdraw the approval before its effective date by publishing a subsequent rule that withdraws this final action. All public comments received will then be addressed in a subsequent rulemaking document. Please be aware that USEPA will institute another rulemaking document
