The Office of Management and Budget has exempted this rule from the requirements of Executive Order 12866. Pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96-354, 94 Stat. 1164, 5 U.S.C. 601-612), the Administrator has determined that regulations establishing new tolerances or food additive regulations or raising tolerance levels or food additive regulations or establishing exemptions from tolerance requirements do not have a significant economic impact on a substantial number of small entities. A certification statement to this effect was published in the **Federal Register** of May 4, 1981 (46 FR 24950).

I. Introduction

The Environmental Protection Agency (EPA) Region 10 announces its intent to delete NAS Whidbey Island Seaplane Base from the National Priorities List (NPL), Appendix B of the National Oil and Hazardous Substances Pollution Contingency Plan (NCP), 40 CFR Part 300, and requests comments on this proposed deletion. EPA identifies sites that appear to present a significant risk to human health or the environment and maintains the NPL as a list of those sites. As noted in Section 300.425(e)(3) of the NCP, sites deleted from the NPL remain eligible for remedial actions in the unlikely event that conditions at the site warrant such actions.

EPA will accept comments on the proposal to delete this Site for thirty days after publication of this notice in the **Federal Register**.

Section II of this notice explains the criteria for deleting sites from the NPL. Section III discusses procedures that EPA is using for this action. Section IV discusses the NAS Whidbey Island Seaplane Base Site and explains how the Site meets the deletion criteria.
