

the administration and management of Montana's reclamation program.

As discussed in finding No. 3, the Director approves the policies and procedures concerning consultation and coordination by the designated agency in administering Montana's AMLR program.

As discussed in finding No. 4, the Director approves Exhibits B, C, and D as additions to Montana's AMLR Plan.

The Director approves the proposed revisions of the Montana plan with the provision that they be fully promulgated in identical form to the plan amendment submitted to and reviewed by OSM and the public.

The Federal regulations at 30 CFR Part 926, codifying decisions concerning the Montana plan, are being amended to implement this decision. This final rule is being made effective immediately to expedite the State plan amendment process and to encourage States to bring their plans into conformity with the Federal standards without undue delay. Consistency of State and Federal standards is required by SMCRA.

VII. Procedural Determinations

1. Executive Order 12866

This rule is exempted from review by the Office of Management and Budget (OMB) under Executive Order 12866 (Regulatory Planning and Review).

2. Executive Order 12778

The Department of the Interior has conducted the reviews required by section 2 of Executive Order 12778 (Civil Justice Reform) and has determined that this rule meets the applicable standards of subsections (a) and (b) of that section. However, these standards are not applicable to the actual language of State AMLR plans and revisions thereof since each such plan is drafted and promulgated by a specific State, not by OSM. Decisions on proposed State AMLR plans and revisions thereof submitted by a State are based on a determination of whether the submittal meets the requirements of Title IV of SMCRA (30 U.S.C. 1231–1243) and the applicable Federal regulations at 30 CFR Parts 884 and 888.

3. National Environmental Policy Act

No environmental impact statement is required for this rule since agency decisions on proposed State AMLR plans and revisions thereof are categorically excluded from compliance with the National Environmental Policy Act (42 U.S.C. 4332) by the Manual of the Department of the Interior (516 DM 6, appendix 8, paragraph 8.4B(29)).

4. Paperwork Reduction Act

This rule does not contain information collection requirements that require approval by OMB under the Paperwork Reduction Act (44 U.S.C. 3507 *et seq.*).

5. Regulatory Flexibility Act

The Department of the Interior has determined that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). The State submittal which is the subject of this rule is based upon Federal regulations for which an economic analysis was prepared and certification made that such regulations would not have a significant economic effect upon a substantial number of small entities. Accordingly, this rule will ensure that existing requirements established by SMCRA or previously promulgated by OSM will be implemented by the State. In making the determination as to whether this rule would have a significant economic impact, the Department relied upon the data and assumptions in the analyses for the corresponding Federal regulations.

BILLING CODE 4310–05–M

30 CFR Part 944

Utah Regulatory Program and Utah Abandoned Mine Land Reclamation (AMLR) Plan

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Final rule; approval of amendment.

SUMMARY: OSM is approving, with additional requirements, a proposed amendment to the Utah regulatory program and Utah AMLR plan (hereinafter referred to as the “Utah program” and the “Utah plan”) under the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The amendment consists of proposed revisions to the Utah Coal Mining and Reclamation Act of 1979. The revisions to the Utah program concern definitions of new terms; rulemaking authority and procedures; administrative procedures; Division of Oil, Gas and Mining (Division) action on permit applications; informal conferences; appeals and further review; release of performance bonds; revegetation standards on lands eligible for re-mining; operator requirements for underground coal mining; contest of violation or amount of penalty; violations of Utah's program or permit conditions; judicial review of rules and orders; repeal of specific sections of the Utah Code Annotated 1953; and repeal dates of certain provisions of the Utah program. The revisions to the Utah plan concern lands and water eligible for reclamation, recovery of reclamation costs, and liens against reclaimed lands. The amendment is intended to revise the Utah program to be consistent with the
