

the applicability of the submitted maintenance plan budget for conformity purposes until the maintenance plan is approved. The applicability may be withdrawn through the submission of a letter from the Governor or his or her designee. If the applicability of the submitted maintenance plan budget is withdrawn for transportation conformity purposes, the build/no-build and less-than-1990 tests will apply until the maintenance plan is approved.

EPA emphasizes that these determinations are contingent upon the continued monitoring and continued attainment and maintenance of the ozone NAAQS in the affected area. When and if a violation of the ozone NAAQS is monitored in the Pittsburgh-Beaver Valley or Reading nonattainment areas (consistent with the requirements contained in 40 CFR part 58 and recorded in AIRS), EPA will provide notice to the public in the **Federal Register**. Such a violation would mean that the area would thereafter have to address the requirements of section 182(b)(1) and section 172(c)(9) since the basis for the determination that they do not apply would no longer exist.

As a consequence of the determination that these areas have attained the NAAQS and that the RFP and attainment demonstration requirements of section 182(b)(1) do not presently apply, the sanctions clocks started by EPA on January 18, 1994, for failure to submit these requirements are hereby stopped since the deficiency for which the clock was started no longer exists.

EPA finds that there is good cause for this action to become effective immediately upon publication because a delayed effective date is unnecessary due to the nature of this action, which is a determination that certain Clean Air Act requirements do not apply for so long as the areas continue to attain the standard. The immediate effective date for this action is authorized under both 5 U.S.C. 553(d)(1), which provides that rulemaking actions may become effective less than 30 days after publication if the rule "grants or recognizes an exemption or relieves a restriction" and section 553(d)(3), which allows an effective date less than 30 days after publication "as otherwise provided by the agency for good cause found and published with the rule."

Under the Regulatory Flexibility Act, 5 U.S.C. 600 *et seq.*, EPA must prepare a regulatory flexibility analysis assessing the impact of any proposed or final rule on small entities. 5 U.S.C. 603 and 604. Alternatively, EPA may certify that the rule will not have a significant impact on a substantial number of small

entities. Small entities include small businesses, small not-for-profit enterprises, and government entities with jurisdiction over populations of less than 50,000. Today's determination does not create any new requirements, but suspends the indicated requirements. Therefore, because this notice does not impose any new requirements, I certify that it does not have a significant impact on any small entities affected.

Under Section 202 of the Unfunded Mandates Reform Act of 1995 ("Unfunded Mandates Act"), signed into law on March 22, 1995, EPA must prepare a budgetary impact statement to accompany any proposed or final that includes a Federal mandate that may result in estimated costs to State, local, or tribal governments in the aggregate; or to the private sector, of \$100 million or more. Under section 205, EPA the most cost-effective and least burdensome alternative that achieves the objectives of the rule and is consistent with statutory requirements. Section 203 requires EPA to establish a plan for informing and advising any small governments that may be significantly or uniquely impacted by the rule.

EPA has determined that today's final action does not include a Federal mandate that may result in estimated costs of \$100 million or more to either State, local, or tribal governments in the aggregate, or to the private sector. This Federal action imposes no new Federal requirements. Accordingly, no additional costs to State, local, or tribal governments, or to the private sector, result from this action.

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this final rule determining that the Pittsburgh-Beaver Valley and Reading ozone nonattainment areas have attained the NAAQS for ozone and that certain RFP and attainment demonstration requirements of sections 182(b)(1) and 172(c)(9) no longer apply must be filed in the United States Court of Appeals for the appropriate circuit by September 18, 1995. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this rule for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Hydrocarbons, Intergovernmental relations, Nitrogen dioxide, Ozone.

Dated: June 10, 1995.

Stanley L. Laskowski,

Acting Regional Administrator, Region III.

40 CFR part 52, subpart NN of chapter I, title 40 is amended as follows:

PART 52—[AMENDED]

1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401-7671q.

Subpart NN—Pennsylvania

2. Section 52.2037 is amended by adding paragraph (b) to read as follows:

§ 52.2037 Control Strategy: Carbon monoxide and ozone (hydrocarbons).

* * * * *

(b)(1) Determination—EPA has determined that, as of July 19, 1995, the Pittsburgh-Beaver Valley ozone nonattainment area has attained the ozone standard and that the reasonable further progress and attainment demonstration requirements of section 182(b)(1) and related requirements of section 172(c)(9) of the Clean Air Act do not apply to this area for so long as the area does not monitor any violations of the ozone standard. If a violation of the ozone NAAQS is monitored in the Pittsburgh-Beaver Valley ozone nonattainment area, these determinations shall no longer apply.

(2) Determination—EPA has determined that, as of July 19, 1995, the Reading ozone nonattainment area has attained the ozone standard and that the reasonable further progress and attainment demonstration requirements of section 182(b)(1) and related requirements of section 172(c)(9) of the Clean Air Act do not apply to this area for so long as the area does not monitor any violations of the ozone standard. If a violation of the ozone NAAQS is monitored in the Reading ozone nonattainment area, these determinations shall no longer apply.
