

facilities, must submit to the Agency an annual report of discrepancies between the quantity and type of PCB waste designated on the manifest or shipping papers, and the quantity or type of PCB waste actually delivered to, and received by, their designated facilities. Commercial storers of PCB waste must submit financial assurance and closure plans for EPA approval of their facilities. Commercial storers must also keep records of burden associated with 3rd-party notifications. In addition, users, storers, and disposers of PCB waste must keep records of all their PCB activities, including copies of manifests and all annual records of the disposition of PCBs. The Agency uses the information to monitor the movement of PCBs and their ultimate disposal, and to ensure compliance with the regulations.

Burden Statement: The estimated average public reporting burden for this collection of information is .38 hour per respondent for reporting, and 7.4 hours per recordkeeper annually. This estimate includes the time to read instructions, gather existing information and complete the required reports.

Respondents: Handlers, users, storers and disposers of PCBs, and owners and operators of PCB disposal facilities.

Estimated No. of Respondents: 22,600.

Estimated No. of Responses Per Respondent: 1.

Estimated Total Annual Burden on Respondents: 175,648 hours.

Frequency of Collection: Annually and on occasion.

Office of Air and Radiation

Title: Enforcement Policy Regarding the Sale and Use of Aftermarket Catalytic Converters (EPA ICR #1292.04; OMB #2060-0135). This ICR requests renewal of the existing clearance.

Abstract: Manufacturers who recondition used catalytic converters and who manufacture replacement catalytic converters must submit semi-annual reports to the EPA describing the reconditioned or manufactured catalysts. For each catalyst line, the Agency requires information concerning the catalysts' design, testing and warranty as well as the make, model and year of the vehicle(s) in which the catalyst may be installed. The EPA uses this information in enforcing its policies on the sale and use of aftermarket catalytic converters.

Burden Statement: The public reporting and recordkeeping burden for this collection of information is estimated to average 4 hours per respondent, including time for reviewing instructions, testing, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

Respondents: manufacturers, reconditioners and installers of aftermarket catalytic converters.

Estimated Number of Respondents: 17,020.

Estimated Total Annual Burden on Respondents: 65,288.

Frequency of Collection: semi-annually.

Send comments regarding the burden estimate, or any other aspect of this information collection, including suggestions for reducing the burden, (please refer to EPA ICR #1292.04 and OMB #2060-0135) to:
