FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 1

[WT Docket No. 95-69, FCC 95-308]

Fees for Products and Services in Connection With Competitive Bidding Procedures

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: The Commission has adopted a Report and Order which establishes a schedule of fees that participants in the competitive bidding process will be assessed for certain on-line computer services, bidding software, and bidder information packages. In establishing the fees, the Report and Order implements the Independent Offices Appropriations Act. The Commission's action in assessing the fees is to recoup the Federal Government's costs for providing such services and products.

EFFECTIVE DATE: July 26, 1995.

SUPPLEMENTARY INFORMATION: This is the complete text of the Report and Order which was adopted on July 21, 1995, and released on July 21, 1995.

I. Introduction

1. In this Report and Order, we amend Part 1 of the Commission's Rules to establish a schedule of fees that participants in the competitive bidding process will be assessed for certain on-line computer services, bidding software, and for bidder information packages. We conclude that assessment of these charges is reasonable and necessary to recoup the Commission's costs for providing such services and products. Specifically, we will assess the following fees to bidders and other interested parties:

- \$2.30 per minute for access via a 900 number telephone service to the Commission's Wide Area Network (FCC WAN) system that will enable users to bid electronically from remote locations and access licensing databases.
- \$175.00 for remote bidding software package.
- No charge for the first bidder information package requested, and a

\$16.00 fee for each additional package that is subsequently requested by the same party.

II. Background

2. The Omnibus Budget Reconciliation Act of 1993, Public Law No. 103-66, Title VI, section 6002(b), 107 Stat. 312, authorized the Commission to award licenses by competitive bidding where mutually exclusive applications for initial licensing are received for subscriber-based services for compensation. Under this authority, the Commission, to date, has conducted three auctions for Personal Communications Service (PCS) licenses.¹ In previous Commission auctions, remote electronic bidding was provided by Business Information network (BIN). Bidders electing to bid electronically from remote locations (*i.e.*, not at the FCC auctions site) paid

¹ The three PCS auction conducted thus far are: (1) The Nationwide Narrowband PCS auction, held from July 25 through July 29, 1994; (2) the Regional PCS Narrowband auction held October 26 through November 8, 1994; and (3) the broadband PCS A and B block auction, held December 5, 1994, through March 13, 1995. All three of these auctions were conducted as simultaneous multiple round auctions. In a simultaneous multiple round auction, auction participants submit bids on specific licenses in each round of the auction. The auction closes when there are no new bids during a bidding round on any of the offered licenses. See Second Report and Order, PP Docket No. 93-253, 9 FCC Rcd 2348 (1994), 59 FR 22,980 (1994).
