

effective, resolving the problem that is the subject of the waiver.

The Interim Waiver provisions added by the 1986 amendment allow the Assistant Secretary to grant an Interim Waiver when it is determined that the applicant will experience economic hardship if the Application for Interim Waiver is denied, if it appears likely that the Petition for Waiver will be granted, and/or the Assistant Secretary determines that it would be desirable for public policy reasons to grant immediate relief pending a determination on the Petition for Waiver. An Interim Waiver remains in effect for a period of 180 days or until the Department issues its determination on the Petition for Waiver, whichever is sooner, and may be extended for an additional 180 days, if necessary.

Kool-Fire filed a "Petition for Waiver," dated July 18, 1994, in accordance with Section 430.27 of 10 CFR Part 430. The Department published in the **Federal Register** on March 3, 1995, Kool-Fire's petition, and solicited comments, data, and information respecting the petition. 60 FR 11967. Kool-Fire also filed an "Application for Interim Waiver" under Section 430.27(g), which the Department granted on February 22, 1995. 60 FR 11968, March 3, 1995.

No comments were received concerning either the "Petition for Waiver" or the "Interim Waiver." The Department consulted with the Federal Trade Commission (FTC) concerning the Kool-Fire Petition. The FTC did not have any objections to the issuance of the waiver to Kool-Fire.

Assertions and Determinations

Kool-Fire's Petition seeks a waiver from the Department's testing of the heating mode operation for its burner-assisted heat pumps because the current Department test procedure does not address burner-assisted heat pumps. Thus, the Department is granting a waiver of the requirement to test Kool-Fire's HC and LTH models in the heating mode.

It is, therefore, ordered that:

(1) The "Petition for Waiver" filed by Kool-Fire (Case No. CAC-007) is hereby granted as set forth in paragraph (2) below, subject to the provisions of paragraphs (3), (4) and (5).

(2) Kool-Fire shall be required to test its lines of HC and LTH heat pumps on the basis of the test procedures specified in 10 CFR Part 430, Subpart B, Appendix M, for the cooling mode of operation, Section 2.1. The heating mode test, Section 2.2, is waived.

(3) The Waiver shall remain in effect from the date of issuance of this Order

until the Department prescribes final test procedures appropriate to the HC and LTH lines of burner-assisted heat pumps manufactured by Kool-Fire.

(4) This Waiver is based upon the presumed validity of statements, allegations, and documentary materials submitted by the petitioner. This Waiver may be revoked or modified at any time upon a determination that the factual basis underlying the petition is incorrect.

(5) Effective July 27, 1995, this Waiver supersedes the Interim Waiver granted Kool-Fire on February 22, 1995. 60 FR 11967, March 3, 1995 (Case No. CAC-007).

Issued In Washington, DC, on July 27, 1995.

Christine A. Ervin,

Assistant Secretary, Energy Efficiency and Renewable Energy.

[FR Doc. 95-19011 Filed 8-1-95; 8:45 am]

BILLING CODE 6450-01-P

Energy Information Administration

Proposed Agency Information Collection Under OMB Review

AGENCY: Energy Information Administration, Department of Energy.

ACTION: Notice of the Proposed Revision of Form RW-859, "Nuclear Fuel Data," Proposed New Form RW-859S, "Nuclear Fuel Data Supplement," and Solicitation of Comments.

SUMMARY: The Energy Information Administration (EIA) is soliciting comments concerning the proposed revision to the Form RW-859, "Nuclear Fuel Data," and proposed new survey Form RW-859S, "Nuclear Fuel Data Supplement."

DATES: Written comments must be submitted by October 2, 1995. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below of your intention to do so as soon as possible.

ADDRESSES: Send comments to Ms. Kathy Gibbard, Program Manager, Form RW-859 and RW-859S, U.S. Department of Energy, Energy Information Administration (EI-531), 1000 Independence Avenue, S.W., Washington, DC 20585, or via e-mail (internet) Kathy.Gibbard@HQ.DOE.GOV. FAX (202) 254-5765.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the form and instructions should be directed to Ms. Gibbard at the

address listed above, telephone (202) 254-5559.

SUPPLEMENTARY INFORMATION:

- I. Background
- II. Current Actions
- III. Request for Comments

I. Background

In order to fulfill its responsibilities under the Federal Energy Administration Act of 1974 (Pub. L. No. 93-275) and the Department of Energy Organization Act (Pub. L. No. 95-91), the Energy Information Administration is obliged to carry out a central, comprehensive, and unified energy data and information program. As part of this program, EIA collects, evaluates, assembles, analyzes, and disseminates data and information related to energy resource reserves, production, demand, and technology, and related economic and statistical information relevant to the adequacy of energy resources to meet demands in the near and longer term future for the Nation's economic and social needs.

The Energy Information Administration, as part of its continuing effort to reduce paperwork and respondent burden (required by the Paperwork Reduction Act of 1995 (Pub. L. 104-13)), conducts a presurvey consultation program to provide the general public and other Federal agencies with an opportunity to comment on proposed and/or continuing reporting forms. This program helps to ensure that requested data can be provided in the desired format, reporting burden is minimized, reporting forms are clearly understood, and the impact of collection requirements on respondents can be properly assessed.

The Nuclear Waste Policy Act of 1982, as amended (NWPA), 42 U.S.C. 10101 *et seq.*, requires that the Secretary develop and implement programs to dispose of spent nuclear fuel. The Office of Civilian Radioactive Waste Management (OCRWM) uses the information from Form RW-859 to understand and explore the specific requirements of developing and conducting programs to effectuate the purposes of the NWPA.

The EIA administers the Form RW-859, "Nuclear Fuel Data", which is used to collect data from owners of commercial nuclear power plants and owners and caretakers of spent nuclear fuel. The Federal Energy Administration Act of 1974 (15 U.S.C. 761 *et seq.*) authorizes the EIA to collect data. The current Form RW-859 collects data on every fuel assembly discharged from domestic commercial nuclear reactors,
