III. Loss of Active Ingredients

Unless the requests for cancellation are withdrawn, one pesticide active ingredients will not longer appear in any registered products. Those who are concerned about the potential loss of this active ingredient for pesticidal use are encouraged to work directly with the registrant to explore the possibility of their withdrawing the request for

cancellation. The active ingredient is listed in the following Table 3, with the EPA Company and CAS Number.

IV. Procedures for Withdrawal of Request

Registrants who choose to withdraw a request for cancellation must submit such withdrawal in writing to James A. Hollins, at the address given above, postmarked before October 31, 1995. This written withdrawal of the request for cancellation will apply only to the applicable 6(f)(1) request listed in this notice. If the product(s) have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling. The withdrawal request must also include a commitment to pay any reregistration fees due, and to fulfill any applicable unsatisfied data requirements.

V. Provisions for Disposition of Existing Stocks

The effective date of cancellation will be the date of the cancellation order. The orders effecting these requested cancellations will generally permit a registrant to sell or distribute existing stocks for one year after the date the cancellation request was received. This policy is in accordance with the Agency's statement of policy as prescribed in **Federal Register** No. 123, Vol. 56, dated June 26, 1991. Exceptions to this general rule will be made if a product poses a risk concern, or is in noncompliance with reregistration requirements, or is subject to a data call-in. In all cases, product-specific disposition dates will be given in the cancellation orders.

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which have been packaged, labeled, and released for shipment prior to the effective date of the cancellation action. Unless the provisions of an earlier order apply, existing stocks already in the hands of dealers or users can be distributed, sold or used legally until they are exhausted, provided that such

further sale and use comply with the EPA-approved label and labeling of the affected product(s). Exceptions to these general rules will be made in specific cases when more stringent restrictions on sale, distribution, or use of the products or their ingredients have already been imposed, as in Special Review actions, or where the Agency has identified significant potential risk concerns associated with a particular chemical.

Cancellation of Pesticides for Non-Payment of 1995 Registration Maintenance Fees

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Since the amendments of October, 1988, the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) has required payment of an annual maintenance fee to keep pesticide registrations in effect. The fee due last January 15 has gone unpaid for about 1,215 registrations. Section 4(i)(5)(D) of FIFRA provides that the Administrator may cancel these registrations by order and without a hearing; orders to cancel all but a few of them have been issued within the past few days. The Agency is deferring cancellation for certain of these registrations, however, to permit time for affected users to explore alternatives to cancellation directly with the registrants.

DATES: Reports of agreements to support continued registration or transfer of the registrations for which cancellation is being deferred must be received by October 31, 1995.

FOR FURTHER INFORMATION CONTACT: To report agreements to support continued registration of any of the products for which cancellation has been deferred, for instructions on payment of delinquent maintenance fees for these products, or for further information on the maintenance fee program in general, contact by mail: John Jamula, Office of Pesticide Programs (7504C), Environmental Protection Agency, 401
