BILLING CODE 7590-01-F

[Docket No. 50-255]

Consumers Power Company; Notice of Partial Denial of Amendment to Facility Operating License and Opportunity for Hearing

The U.S. Nuclear Regulatory Commission (the Commission) has partially denied a request by Consumers Power Company, (licensee) for an amendment to Facility Operating License No DRP-20 issued to the licensee for operation of Palisades, located in Covert Township, Van Buren County, Michigan. Notice of Consideration of Issuance of this amendment was published in the **Federal Register** on May 25, 1994 (59 FR 27053).

The purpose of the licensee's amendment request was to relocate certain Technical Specifications (TS) containing fuel cycle-specific parameter limits that can change with core reloads to a Core Operating Limits Report. Several of the TS bases have also been revised to refer to limits relocated to the COLR.

The NRC staff has concluded that the licensee's request cannot be fully granted. The removal of the power distribution measurement uncertainty factors in Table 3.23.3 and the addition of certain references to TS 6.9.1.f are denied. The licensee was notified of the Commission's denial of the proposed change by a letter dated July 26, 1995.

By September 1, 1995, the licensee may demand a hearing with respect to the denial described above. Any person whose interest may be affected by this proceeding may file a written petition for leave to intervene.

A request for hearing or petition for leave to intervene must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Docketing and Services Branch, or may be delivered to the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC by the above date.

A copy of any petition should also be sent to the Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555, and to Gerald Charnoff, Esq., Shaw, Pittman, Potts and Trowbridge, 2300 N Street, NW., Washington, DC 20037.

For further details with respect to this action, see (1) the application for amendment dated April 7, 1994, as supplemented April 27, 1995, and (2) the Commission's letter to the licensee dated July 26, 1995.

These documents are available for public inspection at the Commission's

Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, 20555 and at the Van Wylen Library, Hope College, Holland, Michigan 49423.

Dated at Rockville, Maryland, this 26th day of July 1995.

For the Nuclear Regulatory Commission.

Marsha Gamberoni,

Project Manager, Project Directorate III-I, Division of Reactor Projects—III/IV, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-M

[Docket Nos. 50-206, 50-361, 50-362]

In the Matter of Southern California Edison Company (San Onofre Nuclear Generating Station, Units 1, 2, and 3).

Southern California Edison Co.

Exemption

I

Southern California Edison Company (SCE or the licensee) is the holder of Facility Operating License No. DPR-13, which authorizes possession and maintenance of the San Onofre Nuclear Generating Station, Unit 1 (SONGS 1) and Facility Operating License Nos. NPF-10 and NPF-15, which authorizes operation of San Onofre Nuclear Generating Station, Units 2 and 3 (SONGS 2 and 3), respectively. The licenses provide, among other things, that the SONGS units are subject to all rules, regulations, and orders of the Commission now or hereafter in effect. The facilities consist of three pressurized water reactors at the SCE site located in San Diego County, California. SONGS 1 is permanently shut down, while Units 2 and 3 remain operational.

II

It is stated in 10 CFR 73.55, "Requirements for physical protection of licensed activities in nuclear power reactors against radiological sabotage," paragraph (a), that "The licensee shall establish and maintain an onsite physical protection system and security organization which will have as its objective to provide high assurance that activities involving special nuclear material are not inimical to the common defense and security and do not constitute an unreasonable risk to the public health and safety."

It is specified in 10 CFR 73.55(d), "Access Requirements," paragraph (1) that "The licensee shall control all points of personnel and vehicle access into a protected area." It is specified in 10 CFR 73.55(d)(5) that "A numbered
