FY 1995 Cable Television System Regulatory Fee

August 1, 1995.

The Federal Communications Commission issues this Public Notice in order to provide information concerning the payment of regulatory fees in 1995. If you are an operator of a cable television system or a licensee of a cable antenna relay service (CARS) or broadcast auxiliary service, you should carefully review this Public Notice.

Who Must Pay Regulatory Fees in 1995

Cable television systems operating on or before *December 31, 1994* must pay regulatory fees per subscriber in 1995. Governments and nonprofit (exempt under Section 501(c) of the Internal Revenue Code) entities are exempt from paying regulatory fees and should not submit payment, but may be asked to submit a current IRS Determination Letter documenting its nonprofit status, a certification of governmental authority, or certification from a governmental authority attesting to its exempt status. All cable television systems must pay regulatory fees of \$0.49 per subscriber for each community unit in which it operates. Additionally, each system operating on or before *October 1, 1994* must pay a \$290.00 fee for each CARS license held and, if applicable, a \$30.00 fee for each Broadcast Auxiliary Service license held. In the event that there has been a change in ownership of a system after the effective dates above, but before the date payment is due, responsibility for payment of the regulatory fees rests upon the new owner.

Why the Commission Must Collect Regulatory Fees

The requirement to collect annual regulatory fees from cable television systems was contained in Public Law
