under the authority of Title V and Part 70 for the purpose of implementing section 112(g) to the extent necessary during the transition period between promulgation of the federal section 112(g) rule and adoption of any necessary District rules to implement EPA's section 112(g) regulations. However, since this approval is for the purpose of providing a mechanism to implement section 112(g) during the transition period, the approval of the Chapter 3 operating permits program for this purpose will be without effect if EPA decides in the final section 112(g) rule that sources are not subject to the requirements of the rule until state regulations are adopted. Although section 112(l) generally provides the authority for approval of state air toxics programs, Title V and section 112(g) provide authority for this limited approval because of the direct linkage between implementation of section 112(g) and Title V. The duration of this approval is limited to 18 months following promulgation by EPA of section 112(g) regulations, to provide the District with adequate time to adopt regulations consistent with federal requirements.

The Office of Management and Budget has exempted this action from Executive Order 12866 review.

EPA's actions under section 502 of the Act do not create any new requirements, but simply address operating permits programs submitted to satisfy the requirements of 40 CFR part 70. Because this action does not impose any new requirements, it does not have a significant impact on a substantial number of small entities.

EPA has determined that this proposed interim approval action does not include a federal mandate that may result in estimated costs of \$100 million or more to either state, local, or tribal governments in the aggregate, or to the private sector. This federal action approves pre-existing requirements under state or local law, and imposes no new federal requirements. Accordingly, no additional costs to state, local, or tribal governments, or to the private sector result from this action.

EPA has determined that this final interim approval action, promulgating interim approval of the District of Columbia's operating permits program, does not include a federal mandate that may result in estimated costs of \$100 million or more to either state, local, or tribal governments in the aggregate, or to the private sector. This federal action approves pre-existing requirements under state or local law, and imposes no new federal requirements. Accordingly, no additional costs to state, local, or

tribal governments, or to the private sector result from this action.

## **Financial Assurance Criteria for Owners and Operators of Municipal** Solid Waste Landfill Facilities

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Final rule; technical corrections.

**SUMMARY:** This rule corrects typographical errors in the Financial Assurance Criteria (40 CFR part 258, subpart G) for owners and operators of municipal solid waste landfills (MSWLFs).

**EFFECTIVE DATE:** These technical corrections are effective August 7, 1995. The effective date for subpart G of 40 CFR part 258 was recently extended from April 9, 1995 until April 9, 1997 (see the April 7, 1995 Federal Register, 60 FR 17649).

**SUPPLEMENTARY INFORMATION:** This rule corrects typographical errors included in the Financial Assurance Criteria issued on October 9, 1991 as part of the Criteria for Municipal Solid Waste Landfills (see 56 FR 50978). The crossreferences in the provisions that relate to a trust fund (§ 258.74(a) (3) and (4)), a letter of credit (§ 258.74(c)(3)) and an insurance policy (§ 258.74(d)(3)) are being changed to reference the correct section that provides for the use of multiple financial mechanisms ("§ 258.74(k)" or "paragraph k") instead of the current (incorrect) reference to the section that addresses a state's assumption of responsibility for compliance with financial assurance requirements ("§ 258.74(j)" or 'paragraph j''); the surety bond provisions at § 258.74(b)(2) already correctly reference § 258.74(k). Another change eliminates an incorrect reference to § 270.74(a) in the trust fund provisions at § 258.74(a)(6) and substitutes the correct reference to § 258.74(a). A final change corrects a grammatical error in the trust fund provisions at  $\S 258.74(a)(4)$  by substituting "in the pay-in period" for "on the pay-in period" in the last sentence of that subsection.

There is good cause pursuant to section 553(b)(3)(B) of the Administrative Procedure Act, 5 U.S.C. 553(b)(3)(B), to issue today's technical corrections without prior notice and comment, because notice and comment is unnecessary when, as in this case, the changes only correct prior typographical errors and do not materially change the regulatory requirements.
