BILLING CODE 3410-11-M; 4310-55-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Parts 51 and 52 [AH-FRL-5268-8; Docket No. A-92-65] RIN 2060-AG04

Requirements for Preparation, Adoption, and Submittal of Implementation Plans

AGENCY: Environmental Protection Agency (EPA).
ACTION: Final rule.

SUMMARY: The "Guideline on Air Quality Models (Revised)" (hereinafter, the "Guideline"), as modified by supplement A (1987) and supplement B (1993), sets forth air quality models and guidance for estimating the air quality impacts of sources and for specifying emission limits for them. The Guideline, codified as appendix W to 40 CFR part 51, is referenced in the PSD (Prevention of Significant Deterioration) regulations and is applied to SIP revisions for existing sources and to all new source reviews. On November 28, 1994 EPA issued a Notice of Proposed Rulemaking to augment the final rule that was published on July 20, 1993. Today EPA takes final action that makes several additions and changes as supplement C to the Guideline. Supplement C does the following: incorporates improved algorithms for treatment of area sources and dry deposition in the Industrial Source Complex (ISC) model, adopts a solar radiation/delta-T (SRDT) method for estimating atmospheric stability categories, adopts a new screening

approach for assessing annual NO₂ impacts, and adds SLAB and HGSYSTEM as alternative models. This action is responsive to public comments received. Adoption of these new and refined modeling techniques and associated guidance should significantly improve the technical basis for impact assessment of air pollution sources. **EFFECTIVE DATE:** This rule is effective September 8, 1995.

ADDRESSES: Docket Statement: All documents relevant to this rule have been placed in Docket No. A–92–65, located in the Air Docket (6102), Room M–1500, Waterside Mall, Attention: Docket A–92–65, U.S. Environmental Protection Agency, 401 M Street SW., Washington, DC 20460. This docket is available for public inspection and copying between 8:00 a.m. and 5:30 p.m., Monday through Friday, at the address above.

Document Availability: Copies of supplement C to the Guideline may be obtained by downloading a text file from the SCRAM (Support Center for Regulatory Air Models) electronic bulletin board system by dialing in on (919) 541-5742. Supplement C may also be obtained upon written request from the Air Quality Modeling Group, U.S. Environmental Protection Agency (MD-14), Research Triangle Park, NC 27711. The "Guideline on Air Quality Models (Revised)" (1986), supplement A (1987), supplement B (1993), and supplement C (1995) are for sale from the U.S. Department of Commerce, Technical Information Service (NTIS), 5825 Port Royal Road, Springfield, VA 22161. These documents are also available for

inspection at each of the ten EPA Regional Offices and at the EPA library at 401 M Street SW., Washington, DC. FOR FURTHER INFORMATION CONTACT:
Joseph A. Tikvart, Leader, Air Quality Modeling Group, Office of Air Quality Planning and Standards, U.S.
Environmental Protection Agency, Research Triangle Park, NC 27711; telephone (919) 541–5561 or C. Thomas Coulter, telephone (919) 541–0832.

SUPPLEMENTARY INFORMATION: Background $^{\mathrm{1}}$

The purpose of the Guideline ² is to promote consistency in the use of modeling within the air management process. The Guideline provides model users with a common basis for estimating pollution concentrations, assessing control strategies and specifying emission limits; these activities are regulated at 40 CFR 51.46, 51.63, 51.112, 51.117, 51.150, 51.160, 51.166, and 51.21. The Guideline was originally published in April 1978. It was incorporated by reference in the regulations for the Prevention of Significant Deterioration of Air Quality

¹In reviewing this preamble, note the distinction between the terms "supplement" and "appendix". Supplements A, B and C contain the replacement pages to effect Guideline revisions; appendix A to the Guideline is the repository for preferred models, while appendix B is the repository for alternate models justified for use on a case-by-case basis.

² Guideline on Air Quality Models "(Revised)"(1986)[EPA-450/2-78-027R], with supplement A (1987) and supplement B (1993), hereinafter, the "Guideline". The Guideline is published as appendix W of 40 CFR part 51. The text of appendix W will be appropriately modified to effect the revisions incorporated as supplement C.
