Illinois' August 15, 1994, withdrawal of its SIP submission, in the proposed rules section of this Federal Register USEPA is withdrawing its May 13, 1993, proposed site-specific RACT requirements for Allsteel's paint operations and its June 18, 1993, proposal to disapprove the State's SIP submission and to promulgate a new rule for the adhesive operations. In this final rule USEPA is withdrawing the May 31, 1991, and the June 4, 1993, stays pending reconsideration, since they are no longer necessary to complete reconsideration of the subject rules. It should be noted that USEPA's June 29, 1990, FIP regulations remain in place.

Pursuant to the good cause exception in section 553(b)(B) of the Administrative Procedure Act, USEPA is taking final action without proposal. The USEPA believes notice-andcomment rulemaking is unnecessary to rescind the stay of the FIP rules because the stay affects only one party and that party requested the stay. Furthermore, there were no comments when USEPA initially promulgated the stay. In addition, USEPA believes it is in the public interest to forego notice-andcomment rulemaking and to rescind the stay as expeditiously as possible because (1) Allsteel has withdrawn the petition for reconsideration upon which the stay was based, and (2) as a result of the rescission of the stay, the June 29, 1990 FIP regulations are fully enforceable.

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Volatile organic compound.

Dated: December 23, 1994.

Carol M. Browner,

Administrator.

For the reasons stated in the preamble, part 52, chapter 1, title 40 of the Code of Federal Regulations is amended as follows:

PART 52—[AMENDED]

1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401-7671q.

Subpart O—Illinois

§ 52.74 [Amended]

2. Section 52.741 is amended by removing and reserving paragraphs (z)(1)(ii) and (z)(5), and in paragraph (z)(1)(i), by removing the semicolon and the word "and" at the end of the paragraph and adding a period.

[FL54-1-6026a: FRL-5089-2]

Approval and Promulgation of Implementation Plans and Designation of Areas for Air Quality Planning Purposes; State of Florida

AGENCY: U.S. Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: On June 23, 1993, the State of Florida, through the Florida Department of Environmental Protection (FDEP), submitted a maintenance plan and a request to redesignate the Duval County area from transitional nonattainment to attainment for ozone (O₃). The O₃ nonattainment area consists only of Duval County. Under the Clean Air Act (CAA), designations can be revised if sufficient data are available to warrant such revisions. In this action, EPA is approving Florida's request because it meets the maintenance plan and redesignation requirements set forth in the CAA and EPA is approving the 1990 base year emissions inventory. The approved maintenance plan will become a federally enforceable part of the State Implementation Plan (SIP) for the Duval County nonattainment area. **DATES:** This final rule will be effective March 6, 1995 unless adverse or critical comments are received by February 2, 1995. If the effective date is delayed, timely notice will be published in the Federal Register.

ADDRESSES: Written comments on this action should be addressed to Joey LeVasseur, at the EPA Regional Office listed below. Copies of the documents relative to this action are available for public inspection during normal business hours at the following locations. The interested persons wanting to examine these documents should make an appointment with the appropriate office at least 24 hours before the visiting day

SUPPLEMENTARY INFORMATION: The CAA, as amended in 1977 (1977 Act) required areas that were designated nonattainment based on a failure to meet the O₃ national ambient air quality standard (NAAQS) to develop SIPs with sufficient control measures to expeditiously attain and maintain the standard. Duval County was designated under section 107 of the 1977 Act as nonattainment with respect to the O₃ NAAQS on March 3, 1978. [43 FR 8964, 40 CFR Section 81.310] In accordance with section 110 of the 1977 Act, the State submitted a part D O₃ SIP on April 30, 1979, which was supplemented on August 27, 1979, and January 23, 1980, which EPA conditionally approved on March 18, 1980, and fully approved on May 14, 1981, as meeting the requirements of section 110 and part D of the 1977 Act.

On November 15, 1990, the CAA Amendments of 1990 were enacted (1990 Amendments) [Pub. L. 101–549, 104 Stat. 2399, codified at 42 U.S.C. §§ 7401–7671q]. The nonattainment designation of Duval County was continued by operation of law pursuant to section 107(d)(1)(C)(i) of the 1990 Amendments. Furthermore, it was classified by operation of law as transitional for O₃ according to section 181(a)(1). (See 56 FR 56694 (Nov. 6, 1991) and 57 FR 56762 (Nov. 30, 1992), codified at 40 CFR 81.310.)

Duval County more recently has ambient monitoring data that show no violations of the O₃ NAAQS, during the period from 1987 through 1993. In addition, there have been no exceedences reported for the 1994 O₃ season, to date. Therefore, in an effort to comply with the amended CAA and to ensure continued attainment of the NAAQS, Florida submitted an O₃ maintenance SIP for the Duval County area on June 23, 1993, and a supplemental revision on August 23, 1994. Florida also requested redesignation of the area to attainment with respect to the O₃ NAAQS.

The 1990 Amendments revised section 107(d)(1)(E) to provide five specific requirements that an area must meet in order to be redesignated from nonattainment to attainment.

1. The area must have attained the applicable NAAQS;

2. The area must meet all relevant requirements under section 110 and part

D of the CAA;
