control document; (iv) in carrying on negotiations with respect to, or in receiving, ordering, buying, selling, delivering, storing, using, or disposing of, in whole or in part, any commodities or technical data exported or to be exported from the United States, and subject to the Regulations; and (v) in financing, forwarding, transporting, or other servicing of such commodities or technical data.

II. After notice and opportunity for comment as provided in Section 770.15(h) of the Regulations, any person, firm, corporation, or business organization related to New York & Southern Lumber Corporation by affiliation, ownership, control, or position of responsibility in the conduct of trade or related services may also be subject to the provisions of this Order.

III. As provided in Section 787.12(a) of the Regulations, without prior disclosure of the facts to and specific authorization of the Office of Export Licensing, in consultation with the Office of Export Enforcement, no person may directly or indirectly, in any manner or capacity: (i) apply for, obtain, or use any license, Shipper's Export Declaration, bill of lading, or other export control document relating to an export or reexport of commodities or technical data by, to, or for another person then subject to an order revoking or denying his export privileges or then excluded from practice before the Bureau of Export Administration; or (ii) order, buy, receive, use, sell, deliver, store, dispose of, forward, transport, finance, or otherwise service or participate: (a) in any transaction which may involve any commodity or technical data exported or to be exported from the United States; (b) in any reexport thereof; or (c) in any other transaction which is subject to the Export Administration Regulations, if the person denied export privileges may obtain any benefit or have any interest in, directly or indirectly, any of these transactions.

IV. The 10-year denial period is suspended until June 15, 2005 and shall thereafter be waived, provided that New York & Southern Lumber Corporation, during the period of suspension, has committed no violations of the Act or any regulation, license, or order issued under the Act.

V. This Order is effective immediately.

VI. A copy of this Order shall be delivered to New York & Southern Lumber Corporation. Dated: July 26, 1995. **Eileen M. Albanese,** *Acting Director, Office of Exporter Services.* [FR Doc. 95–20080 Filed 8–14–95; 8:45 am] BILLING CODE 3510–DT–M

RIN 0693-AB23

Approval of Federal Information Processing Standards Publication 195, Federal Building Grounding and Bonding Requirements for Telecommunications

AGENCY: National Institute of Standards and Technology (NIST), Commerce. **ACTION:** Notice.

SUMMARY: The purpose of this notice is to announce that the Secretary of Commerce has approved a new standard, which will be published as FIPS Publication 195, Federal Building Grounding and Bonding Requirements for Telecommunications.

On December 6, 1994, notice was published in the **Federal Register** (59 FR 62712–62714) that a Federal Information processing Standard (FIPS) for Federal Building Grounding and Bonding Requirements for Telecommunications was being proposed for Federal use.

NIST reviewed written comments submitted by interested parties and other available material. On the basis of this review, NIST recommended that the Secretary approve the standard as a Federal Information Processing Standard (FIPS), and prepared a detailed justification document for the Secretary's review in support of that recommendation.

The detailed justification document which was presented to the Secretary, and which includes an analysis of the written comments received, is part of the public record and is available for inspection and copying in the Department's Central Reference and Records Inspection Facility, Room 6020, Herbert C. Hoover Building, 14th Street between Pennsylvania and Constitution Avenues, NW, Washington, DC 20230.

This FIPS contains two sections: (1) An announcement section, which provides information concerning the applicability, implementation, and maintenance of the standard; and (2) a specifications section, which deals with the technical requirements of the standard. Only the announcement section of the standard is provided in this notice. **EFFECTIVE DATE:** This standard becomes effective February 12, 1996. **ADDRESSES:** Interested parties may

ADDRESSES: Interested parties may purchase copies of this standard, including the technical specifications section, from the National Technical Information Service (NTIS). Specific ordering information from NTIS for this standard is set out in the Where to Obtain Copies Section of the announcement section of the standard.

FOR FURTHER INFORMATION CONTACT: Mr. A. Glenn Hanson, Institute for Telecommunications Sciences, National Telecommunications and Information Administration, 325 Broadway, Boulder, CO 80303–3328, telephone 303–497– 5449; FAX 303–497–6982.

Dated: August 8, 1995.

Samuel Kramer,

Associate Director.

Proposed Federal Information Processing Standards Publication 195 (date) Announcing the Standard for Federal Building Grounding and Bonding Requirements for Telecommunications

Federal Information Processing Standards Publications (FIPS PUBS) are issued by the National Institute of Standards and Technology (NIST) after approval by the Secretary of Commerce pursuant to Section 111(d) of the Federal Property and Administrative Services Act of 1949 as amended by the Computer Security Act of 1987, Public Law 100–235.

1. Name of Standard

Federal Building Grounding and Bonding Requirements for Telecommunications. (Former Draft Federal Standard 1093).

2. Category of Standard

Telecommunications Standard; Grounding and Bonding.

3. Explanation

This standard, by adoption of ANSI/ TIA/EIA-607-1994, Commercial **Building Grounding and Bonding Requirements for Telecommunications**, specifies the requirements for a uniform telecommunications grounding and bonding infrastructure for Federal buildings where telecommunications equipment is installed. The standard provides the requirements for a ground reference for telecommunications systems within the telecommunications entrance facility, the telecommunications closet, and equipment room; it also provides the requirements for bonding and connecting pathways, cable shields, conductors, and hardware at
