SUPPLEMENTARY INFORMATION: FCC Requests Nominations for Membership on the North American Numbering Council Advisory Committee; Public Notice [CC Docket No. 92–237; DA 95– 1721].

Released: August 9, 1995.

Washington, DC 20554.

1. On July 13, 1995, the Commission adopted a new model for administration of the North American Numbering Plan (NANP) by announcing the establishment of the North American Numbering Council (NANC or Council). See Administration of the North American Numbering Plan, CC Docket No. 92–237, Report and Order, FCC 95–283 (released July 13, 1995) 60 FR 38737, July 28, 1995. The NANP is the basic numbering scheme that permits calls to be placed within the United

States, Canada, Bermuda and most of the Caribbean with, at most, 11 digit dialing. The model is guided by several principles, including maintaining and fostering an integrated approach to number administration throughout North America and providing a structure for number administration that is impartial and pro-competitive. The NANC will be organized under the provisions of the Federal Advisory Committee Act, 5 U.S.C., App. 2 (1988) (FACA), and will advise the Commission on numbering issues, select and guide a neutral NANP Administrator, apply Commission policy to resolve issues arising in the administration of the NANP, and conduct initial dispute resolution of all issues. The NANP Administrator will process number resource applications and maintain administrative numbering databases. Operational details and additional activities of the NANP Administrator are to be determined by the NANC. The Commission, with other NANP member countries, will oversee the NANC. Because the Council will include representatives from every sector of the telecommunications industry, as well as members representing NANP member countries, the states, and consumers, the Council's membership will be impartial and well balanced.

2. In carrying out its responsibilities, the Council shall assure that NANP administration supports the following policy objectives: (1) That the NANP facilitates entry into the communications marketplace by making numbering resources available on an efficient, timely basis to communications service providers; (2) that the NANP does not unduly favor or disfavor any particular industry segment or group of consumers; (3) that the NANP gives due regard to state and local interests; (4) that the NANP does not unduly favor one technology over another; (5) that the NANP gives consumers easy access to the public switched telephone network; and (6) that the NANP ensure that the interests of all NANP member countries are addressed fairly and efficiently, fostering continued integration of the NANP across NANP member countries.
