FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 61

[CC Docket No. 93-197, FCC 95-18]

Revisions to Price Cap Rules for AT&T Corp.

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This action is taken to remove commercial service from price cap regulation. The Commission feels that there is sufficient evidence to conclude that American Telephone and Telegraph's (AT&T's) commercial long distance services are subject to substantial competition. It is intended that this action will provide streamlined regulation for commercial service.

EFFECTIVE DATE: February 23, 1995.

FOR FURTHER INFORMATION CONTACT: Suzan Friedman, (202) 418–1530.

SUPPLEMENTARY INFORMATION: On January 12, 1995, the Commission adopted and released a Report and Order in CC Docket No. 93-197 revising the Commission's Rules on Price Cap rules for AT&T. This Order removes commercial services from price cap regulation and initiates streamlined regulation for those services. The commercial services classification was created by AT&T pursuant to Section 201(b) of the Communications Act. It permits the creation of specific classifications of services, including commercial. Commercial services refers to services used by AT&T's customers who are classified as business, as opposed to residential customers by local telephone companies.

SUPPLEMENTARY INFORMATION:

A. Background

Section 256 of the National Defense Authorization Act for Fiscal Year 1995 (Public Law 103–337) requires that competitive procedures be used in awarding contracts under the Manufacturing arrangement be used unless an alternative is approved by the Secretary of Defense. This interim DFARS rule implements these requirements.

B. Determination To Issue an Interim Rule

A determination has been made under the authority of the Secretary of Defense to issue this rule as an interim rule. Compelling reasons exist to promulgate this rule without prior opportunity for public comment because Section 256 of the National Defense Authorization Act for Fiscal Year 1995 (Public Law 103-337) became effective upon enactment of the Act, October 5, 1994. This interim rule is necessary to ensure that DoD contracting activities become aware of the statutory requirement for competition and cost-sharing arrangements when awarding contracts under the Manufacturing Science and Technology Program. However, comments received in response to the publication of this rule will be considered in formulating the final rule.

C. Regulatory Flexibility Act

The interim rule is not expected to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, et seq., because the rule only applies to acquisitions under the Manufacturing Science and Technology Program. In the past, small entities have not participated in any substantial numbers. This rule is not expected to change small entities participation. An initial regulatory flexibility analysis has therefore not been performed. Comments are invited from small businesses and other interested parties. Comments from small entities concerning the affected subparts will be considered in accordance with Section 610 of the Act. Such comments must be submitted separately and cite DFARS Case 94-D307 in correspondence.

D. Paperwork Reduction Act

The Paperwork Reduction Act (Pub. L. 96–511) does not apply because this final rule does not impose any new recordkeeping, information collection requirements, or collection of information from offerors, contractors, or members of the public which require
