Merit Review of Discretionary Financial Assistance Applications'' which was published in the **Federal Register** on May 31, 1990 (Vol. 55, No. 105). Selections for negotiations are expected to be made May 10, 1995, and financial assistance awards are expected to be made beginning July 21, 1995.

SECTION III—GENERAL CONDITIONS

The applications will be evaluated in accordance with the Office of Energy Efficiency and Renewable Energy Merit Review Procedure, and the criteria and programmatic considerations set forth in this solicitation. In conducting this evaluation, the Government may utilize assistance and advice from non-Government personnel. Applicants are therefore requested to state on the cover sheet of the applications if they do not consent to an evaluation by such non-Government personnel. The applicants are further advised that DOE may be unable to give full consideration to an application submitted without such consent. DOE reserves the right to support or not to support any, all, or any part of any application. All applicants will be notified in writing of the action taken on their applications in approximately 90 days after the closing date for this solicitation, provided no follow-up clarifications are needed. Status of any application during the evaluation and selection process will not be discussed with the applicants. Unsuccessful applications will not be returned.

A. Instructions for Preparation of Applications

Each application in response to this solicitation should be prepared in one volume. One original and nine copies of each application are required. Proposals shall be a maximum of 30 pages excluding costing information and, assurance and certification forms provided in the DOE Application Instruction package. The application facesheet is the Standard Form 424. The application is to be prepared for the complete project period.

a. Proprietary Proposal Information

Applications submitted in response to this solicitation may contain trade secrets and/or privileged or confidential commercial or financial information which the applicant does not want used or disclosed for any purpose other than evaluation of the application. The use and disclosure of such data may be restricted provided the applicant marks the cover sheet of the application with the following legend, specifying the pages of the application which are to be restricted in accordance with the conditions of the legend:

The data contained in pages _____ of this application have been submitted in confidence and contain trade secrets or proprietary information, and such data shall be used or disclosed only for evaluation purposes, provided that if this applicant receives an award as a result of or in connection with the submission of this application, DOE shall have the right to use or disclose the data herein to the extent provided in the award. This restriction does not limit the government's right to use or disclose data obtained without restriction from any source, including the applicant.

Further, to protect such data, each page containing such data shall be specifically identified and marked, including each line or paragraph containing the data to be protected with a legend similar to the following:

Use or disclosure of the data set forth above is subject to the restriction on the cover page of this application.

It should be noted, however, that data bearing the aforementioned legend may be subject to release under the provisions of the Freedom of Information Act (FOIA), if DOE or a court determines that the material so marked is not exempt under the FOIA. The Government assumes no liability for disclosure or use of unmarked data and may use or disclose such data for any purpose. Applicants are hereby notified that DOE intends to make all applications submitted available to non-Government personnel for the sole purpose of assisting the DOE in its evaluation of the applications. These individuals will be required to protect the confidentiality of any specifically identified information obtained as a result of their participation in the evaluation.

b. Budget

A budget period is an interval of time (usually 12 months) into which the project period is divided for funding and reporting purposes. Project period means the total approved period of time that DOE will provide support contingent upon satisfactory progress and availability of funds. The project period may be divided into several budget periods. The project period shall not exceed three years. Each application must contain Standard Forms 424 and 424A. The budget summary page only needs to be completed for the first budget period; all other periods of support requested should be shown on the total costs page. The proposal should contain full details of the costs regarding the labor, overhead, material, travel, subcontracts, consultants, and other support costs broken down by task

and by year. Every cost item should be justifiable and further details of the costs may be required if the proposal is selected for the award. It is essential that requested details be submitted in a timely manner for the actual award. Items of needed equipment should be individually listed by description and estimated cost, inclusive of tax, and adequately justified. The destination and purpose of budgeted travel and its relation to the research, should be specified. Anticipated consultant services should be justified and information furnished on each individual's expertise, primary organizational affiliation, daily compensation rate and number of days of expected service. Consultant's travel costs should be listed separately under travel in the budget.

c. Cost Proposal

In the event there are multiple projects proposed in a submittal, a separate cost proposal should be included for each project proposed for funding. The cost proposal should have sufficient detail that an independent evaluation of the labor, materials, equipment and other costs as well as a verification of the proposed cost share can be performed.

B. Notices to Applicants

a. False Statements: Applications must set forth full, accurate, and complete information as required by this solicitation. The penalty for making false statements is prescribed in 18 U.S.C. 1001.

b. Application Clarification: DOE reserves the right to require applications to be clarified or supplemented to the extent considered necessary either through additional written submissions or oral presentations.

c. Amendments: All amendments to this solicitation will be mailed to recipients who submit a written request for the DOE Application Instruction package.

d. Applicant's Past Performance: DOE reserves the right to solicit from available sources relevant information concerning an applicant's past performance and may consider such information in its evaluation.

e. Commitment of Public Funds: The Contracting Officer is the only individual who can legally commit the Government to the expenditure of public funds in connection with the proposed award. Any other commitment, either explicit or implied, is invalid.

f. Effective Period of Application: All applications should remain in effect for at least 180 days from the closing date.
