EPA does not believe that "export-only" registrations are appropriate under FIFRA, and intends to grant Velsicol's request for voluntary cancellation of these registrations thirty (30) days after publication of this notice. After the registrations are cancelled, EPA will permit continued exports of chlordane and heptachlor only if such exports are consistent with all the requirements of section 17 of FIFRA, including the labeling and purchaser-acknowledgement provisions of section 17(a). The following Table 2 includes the names and addresses of record for all registrants of the products in Table 1, in sequence by EPA Company Number.

The active ingredient is listed in the following Table 3, with the EPA Company and CAS Number.

Registrants who choose to withdraw a request for cancellation must submit such withdrawal in writing to James A. Hollins, at the address given above, postmarked before December 6, 1995. This policy is in accordance with the Agency's statement of policy as prescribed in **Federal Register** No. 123,

Vol. 56, dated June 26, 1991. Exceptions to this general rule will be made if a product poses a risk concern, or is in noncompliance with reregistration requirements, or is subject to a data call-in. In all cases, product-specific disposition dates will be given in the cancellation orders.

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which have been packaged, labeled, and released for shipment prior to the effective date of the cancellation action. Unless the provisions of an earlier order apply, existing stocks already in the
