the facility that meet the conditions specified in § 265.1080(d)(1).

(2) A description of how the hazardous waste containing the organic peroxide compounds identified in paragraph (i)(1) of this section are managed at the facility in tanks and containers. This description shall include the following information:

(i) For the tanks used at the facility to manage this hazardous waste, sufficient information shall be provided to describe for each tank: a facility identification number for the tank; the purpose and placement of this tank in the management train of this hazardous waste; and the procedures used to ultimately dispose of the hazardous waste managed in the tanks.

(ii) For containers used at the facility to manage these hazardous wastes, sufficient information shall be provided to describe: a facility identification number for the container or group of containers; the purpose and placement of this container, or group of containers, in the management train of this hazardous waste; and the procedures used to ultimately dispose of the hazardous waste handled in the containers.

(3) An explanation of why managing the hazardous waste containing the organic peroxide compounds identified in paragraph (i)(1) of this section in the tanks and containers as described in paragraph (i)(2) of this section would create an undue safety hazard if the air emission controls, as required under §§ 265.1085 through 265.1088 of this subpart, are installed and operated on these waste management units. This explanation shall include the following information:

(i) For tanks used at the facility to manage these hazardous wastes, sufficient information shall be provided to explain: how use of the required air emission controls on the tanks would affect the tank design features and facility operating procedures currently used to prevent an undue safety hazard during the management of this hazardous waste in the tanks; and why installation of safety devices on the required air emission controls, as allowed under § 265.1085(g) of this subpart, will not address those situations in which evacuation of tanks equipped with these air emission controls is necessary and consistent with good engineering and safety practices for handling organic peroxides.

(ii) For containers used at the facility to manage these hazardous wastes, sufficient information shall be provided to explain: how use of the required air emission controls on the containers would affect the container design features and handling procedures currently used to prevent an undue safety hazard during the management of this hazardous waste in the containers; and why installation of safety devices on the required air emission controls, as allowed under § 265.1087(d) of this subpart, will not address those situations in which evacuation of containers equipped with these air emission controls is necessary and consistent with good engineering and safety practices for handling organic peroxides.

## 40 CFR Part 300

[FRL-5306-3]

## National Oil and Hazardous Substances Contingency Plan; National Priorities List Update

**AGENCY:** Environmental Protection Agency.

**ACTION:** Notice of deletion of the Witco Chemical Corporation Superfund Site from the National Priorities List (NPL).

**SUMMARY:** The Environmental Protection Agency (EPA) Region II announces the deletion of the Witco Chemical Corporation Superfund site in Oakland, New Jersey from the National Priorities List (NPL). The NPL is Appendix B of 40 CFR Part 300, the National Oil and Hazardous Substances Contingency Plan (NCP), which EPA promulgated pursuant to Section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), as amended. EPA and the State of New Jersey have determined that all appropriate Fundfinanced responses under CERCLA have been implemented and that no further cleanup by responsible parties is appropriate. Moreover, EPA and the State of New Jersey have determined that remedial actions conducted at the site to date remain protective of public health, welfare, and the environment. **EFFECTIVE DATE:** September 29, 1995.

FOR FURTHER INFORMATION CONTACT: Mr. John Osolin, Remedial Project Manager, U.S. Environmental Protection Agency, Region II, 290 Broadway, 19th Floor, New York, New York 10007, (212) 637–4412.

**ADDRESSES:** Comprehensive information on this site is available at the following addresses:

Oakland Public Library, Municipal Plaza, Oakland, New Jersey 07436, (201) 337–3742, Hrs. M–TH 10:00 AM-9:00 PM, F & SA 10:00 AM-5:00 PM.

Superfund Records Center, U.S. Environmental Protection Agency, Region II, 290 Broadway, 18th Floor, New York, New York 10007, (212) 637–4308, Hrs. M–F 9:00 AM–5:00 PM, (Call for an appointment, reasonable fees may be charged for copying.).

**SUPPLEMENTARY INFORMATION:** The site to be deleted from the NPL is: Witco Chemical Corporation Site, Oakland, New Jersey.

A Notice of Intent to Delete for this site was published November 18, 1993 (58 FR 60825). The closing date for comments on the Notice of Intent to Delete was December 17, 1993. EPA received no comments and therefore has not prepared a Responsiveness Summary.

The EPA identifies sites which appear to present a significant risk to public health, welfare, or the environment and it maintains the NPL as the list of those sites. Sites on the NPL may be the subject of Hazardous Substance Response Trust Fund (Fund-) financed remedial actions. Section 300.425(e)(3) of the NCP states that Fund-financed actions may be taken at sites deleted from the NPL in the unlikely event that conditions at the site warrant such action. Deletion of a site from the NPL does not affect responsible party liability or impede agency efforts to recover costs associated with response efforts.

List of Subjects in 40 CFR Part 300

Environmental protection, Air pollution control, Chemicals, Hazardous substances, Hazardous waste, Intergovernmental relations, Penalties, Reporting and recordkeeping requirements, Superfund, Water pollution control, Water supply.

Dated: September 15, 1995. William J. Muszynski, Acting Regional Administrator. 40 CFR part 300 is amended as follows:

## PART 300—[AMENDED]

1. The authority citation for part 300 continues to read as follows:

Authority: 33 U.S.C. 1321(c)(2); 42 U.S.C. 9601–9657; E.O. 12777, 56 FR 54757, 3 CFR, 1991 Comp.; p. 351; E.O. 12580, 52 FR 2923, 3 CFR, 1987 Comp.; p. 193.

## Appendix B—[Amended]

2. Table 1 of appendix B to part 300 is amended by removing Witco
