I. Information Collection Requests

EPA is seeking comments on the following Information Collection Requests (ICRs).

Title: Data Call-In for Special Review Chemicals. ICR No. 922.04. OMB No. 2070–0057. Expiration date: March 31, 1996.

Affected Entities: Parties affected by this information collection are manufacturers of pesticide chemicals.

Abstract: The Federal Insecticide, Fungicide, and Rodenticide Act as amended (FIFRA) mandates that EPA register pesticide products. Under FIFRA, EPA may require pesticide registrants to generate and submit data to the Agency where such data are needed to assess whether registration of an existing pesticide causes an unreasonable adverse effect on human health or the environment. Pesticide registrants must generate and report the required data.

The purpose of this information collection activity is for EPA's Office of Pesticide Programs (OPP) to obtain data to assess whether certain pesticides pose unreasonable adverse effects on human health or the environment, and therefore should continue to be registered. Data may consist of toxicology studies, fish and wildlife studies, environmental fate studies, chemistry studies, or other data needed to analyze the potential risks and benefits associated with pesticide chemicals. EPA gathers much of the additional information needed to reassess a chemical by requesting data from the registrant under FIFRA section 3(c)(2)(B).

No third party notification or public disclosure burden is associated with this collection.

Burden Statement: The current total annual respondent burden estimate is 58,880 hours. The current ICR estimated 8 Special Review Data Call-Ins (DCIs) and 64 respondents annually; included in the renewal the Agency predicts an average of 4 Special Review DCIs and 32 respondents annually. This revised prediction reduces the total burden estimates to 29,440 hours annually. Each respondent is required to respond only once per event. Small businesses are generally exempt from generating data on purchased registered active ingredients. Most small entities are formulators, who need only respond to a data call-in for basic data by indicating a legitimate claim for exemption. They do not incur any other information burden associated with the call-in.

Title: Export Policy: Foreign Purchaser Acknowledgement Statement of Unregistered Pesticides. ICR No. 161.06. OMB No. 2070–0027. Expiration date: March 31, 1996.

Affected Entities: Parties affected by this action are exporters of pesticides.

Abstract: Section 17 of FIFRA requires an exporter of any pesticide not registered under FIFRA to obtain a signed statement from the foreign purchaser acknowledging that the purchaser is aware that the pesticide is not registered for use in the United States and cannot be sold in the United
