as Federal, State, private, public, or other entity:

3. Location. The street address of the facility for which the notification is submitted. Also describe the location of the approximate center of the facility in terms of the latitude and longitude to the nearest 15 seconds, or the quarter section, township and range (to the nearest quarter section);

4. Federal Indian Reservations. An indication of whether the facility is located on Federal Indian Reservations;

Receiving Water. The name of the receiving water(s), or if the discharge is through a municipal separate storm sewer, the name of the municipal operator of the storm sewer and the ultimate receiving water(s) for the discharge through the municipal separate storm sewer;

- 6. Co-permittee. The storm water general permit number if such a number has been issued to a co-permittee;
- 7. Monitoring. The monitoring status of the facility;
- 8. SIC Code. Up to four 4-digit Standard Industrial Classification (SIC) codes that best represent the principal products produced or services rendered, or for hazardous waste treatment, storage or disposal facilities, land/disposal facilities that receive or have received any industrial waste, steam electric power generating facilities, or treatment works treating domestic sewage, a narrative identification of those activities;
- 9. Other Permits. The permit number(s) of additional NPDES permit(s) for any discharge(s) (including non-storm water discharges) from the site that are currently authorized by an NPDES permit;
- 10. Presence of Endangered Species. Based on the instructions in Addendum H, no species identified in Addendum H are in proximity to the storm water discharges to be covered under this permit, or the areas of BMP construction to control those storm water discharges.
- 11. National Historic Preservation Act Compliance. A yes or no response to the following statement: Applicant has obtained and is in compliance with Historic Preservation Agreement.
- 12. Eligibility Certification. The following certifications shall be signed in accordance with Part VII.G.

I certify under penalty of law that I have read and understand the Part I.B. eligibility requirements for coverage under the multisector storm water general permit including those requirements relating to the protection of species identified in Addendum H.

To the best of my knowledge the discharges covered under this permit, and the construction of BMPs to control storm water runoff, are not likely and will not likely, adversely affect any species identified in Addendum H of this permit, or are otherwise eligible for coverage due to previous authorization under the Endangered Species Act.

To the best of my knowledge, I further certify that such discharges, and construction of BMPs to control storm water runoff, do not have an effect on properties listed or eligible for listing on the National Register of Historic Places under the National Historic Preservation Act, or are otherwise eligible for coverage due to a previous agreement under the National Historic Preservation Act.

I understand that continued coverage under the multi-sector storm water general permit is contingent upon maintaining eligibility as provided for in Part I.B.

13. Pollution Prevention Plan Certification. For any facility that begins to discharge storm water associated with industrial activity after [insert date 270 days after permit finalization], a certification that a storm water pollution prevention plan has been prepared for the facility in accordance with Part IV. of this permit must be included on the NOI. (Do not include a copy of the plan with the NOI submission.)

#### C. Where To Submit

Facilities that discharge storm water associated with industrial activity must use an NOI form provided by the Director (or photocopy thereof). NOIs must be signed in accordance with Part VII.G. (Signatory Requirements) of this permit. NOIs are to be submitted to the Director of the NPDES program at the following address: Storm Water Notice of Intent (4203), 401 M Street, S.W., Washington, D.C. 20460.

## D. Additional Notification

Facilities that discharge storm water associated with industrial activity through large or medium municipal separate storm sewer systems (systems located in an incorporated city with a population of 100,000 or more, or in a county identified as having a large or medium system (see definition in Part X. of this permit and Addendum D of this notice)), or into a municipal separate storm sewer that has been designated by the permitting authority shall, in addition to filing copies of the NOI in accordance with paragraph II.C., submit signed copies of the NOI to the operator of the municipal separate storm sewer through which they discharge in accordance with the deadlines in Part II.A. (Deadlines for Notification) of this permit.

### III. Special Conditions

# A. Prohibition of Non-storm Water Discharges

 Storm Water Discharges. Except as provided in paragraph III.A.2 (below), all discharges covered by this permit shall be composed entirely of storm water.

2. Non-storm Water Discharges. a. Except as provided in paragraph III.A.2.b (below), discharges of material other than storm water must be in compliance with an NPDES permit (other than this permit) issued for the discharge.

b. The following non-storm water discharges may be authorized by this permit provided the non-storm water component of the discharge is in compliance with Part IV and Part XI: discharges from fire fighting activities; fire hydrant flushings; potable water sources including waterline flushings; drinking fountain water, uncontaminated compressor condensate, irrigation drainage; lawn watering; routine external building washdown that does not use detergents or other compounds; pavement washwaters where spills or leaks of toxic or hazardous materials have not occurred (unless all spilled material has been removed) and where detergents are not used; air conditioning condensate; compressor condensate; uncontaminated springs; uncontaminated ground water; and foundation or footing drains where flows are not contaminated with process materials such as solvents.

### B. Releases in Excess of Reportable Quantities

1. Hazardous Substances or Oil. The discharge of hazardous substances or oil in the storm water discharge(s) from a facility shall be prevented or minimized in accordance with the applicable storm water pollution prevention plan for the facility. This permit does not relieve the permittee of the reporting requirements of 40 CFR Part 117 and 40 CFR Part 302. Except as provided in paragraph III.B.2 (Multiple Anticipated Discharges) of this permit, where a release containing a hazardous substance in an amount equal to or in excess of a reporting quantity established under either 40 CFR Part 117 or 40 CFR Part 302, occurs during a 24-hour period:

a. The discharger is required to notify the National Response Center (NRC) (800–424–8802; in the Washington, DC metropolitan area 202–426–2675) in accordance with the requirements of 40 CFR Part 117 and 40 CFR Part 302 as soon as he or she has knowledge of the discharge;

b. The storm water pollution prevention plan required under Part IV. (Storm Water Pollution Prevention Plans) of this permit must be modified within 14 calendar days of knowledge of the release to: provide a description of
