Sales Agreement. Transwestern submits that it desires to sell such facilities to GPM because the gas wells attached to these gathering laterals are now dedicated and flowing to GPM's gathering systems and no longer flow through its system.

Transwestern states that GPM has informed it that GPM has executed a 10year purchase contract on all production from the gas wells flowing into Transwestern's laterals, which are the subject of the Sales Agreement. Transwestern states that it is currently providing an interruptible transportation service for GPM and is redelivering volumes from the wells to interconnects with GPM located on certain of the subject laterals.

Transwestern states that its Exhibit Y proposes to account for the abandonment by sale of the Brillhart and Kiowa Creek gathering systems to GPM as a disposition of an operating unit or system(s) under Gas Plant Instruction No. 5, Gas Plant Purchased or Sold, (GPI 5) of the Uniform System of Accounts. It is stated that GPI 5 requires that : (i) the original cost of the facilities sold be removed from Account No. 101, Gas Plant in Service; (ii) the related accumulated provision for depreciation be removed from Account No. 108; and (iii) the resultant gain or loss be recorded in Account No. 421.1, Gain on Disposition of Property, or Account No, 421.2, Loss on Disposition of Property, as appropriate. It is stated that GPI 5 also requires that a disposition of an operating unit or system be recorded through Account No. 102, Gas Plant Purchased or Sold.

Therefore, in compliance with the Commission's Rules and Regulations, Transwestern states that it shall account for the sale of the Brillhart and Kiowa Creek gathering facilities as a gain on the disposition of facilities in accordance with GPI 5.
