comments they received on the proposed rule changes. The text of these statements may be examined at the places specified in Item IV below. The SROs have prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

#### 1. Purpose

The current NYSE and NASD rules require clearing member firms to report positions resulting from short sales, as that term is defined in Rule 3b-3 of the Securities Exchange Act of 1934, in Exchange listed securities and, with respect to the NASD, securities included in the NASDAQ System. Such reports are required on a monthly basis, submitted via electronic transmission of the data through the Securities Industry Automation Corporation ("SIAC"). The SROs utilize such data, in general, to surveil market activity. In addition, the NYSE publishes a monthly release of short interest information as a service to listed companies, the investing public, market professionals and other

interested parties.

The SROs have worked closely with each other as members of the Inter-Market Surveillance Group ("ISG"), a group which includes representatives of every U.S. securities self-regulatory organization, to address problems that reach across marketplaces. ISG members have identified uniform short position reporting as an important surveillance tool that can be utilized to good effect in monitoring possible anomalous trading situations. Each member of the ISG is planning to adopt similar provisions.

Generally, the SROs propose to require all members to report short interest positions to the SRO that is the designated examining authority ("DEA") for that member. In addition, most SROs will require those members for which the SRO is not the DEA to report to the SRO which is its DEA, unless that SRO does not have a reporting requirement. In cases where no reporting is required by the DEA, the member would be required to report short position information to the SRO where it is a member irrespective of its non-DEA status.

Reports to the SROs would primarily include listed and registered securities, not otherwise reported to another SRO. Reporting would be required at such times as designated by the SROs.

Finally, most rules would clarify that both proprietary and customer positions must be reported.

The full text of each SRO's proposed rule change is available at the Commission's Public Reference Room and at the offices of each respective SRO.

### 2. Statutory Basis

The SROs believe that the basis under the Securities Exchange Act of 1934 (the "Act") for the proposed rule changes is the requirement under Section 6(b)(5) and 15A(b)(6), as applicable, that an SRO have rules that are designed to promote just and equitable principles of trade, to remove impediments to, and perfect the mechanism of a free and open market and, in general, to protect investors and the public interest. The proposed rule changes are consistent with these objectives in that they would enhance the Exchanges' regulatory and surveillance capabilities with respect to short interest reporting, augment market transparency for certain securities, enable investors to make more informed decisions, and provide greater disclosure for regulatory purposes.

# B. Self-Regulatory Organization's Statement on Burden on Competition

The SROs do not believe that the proposed rule changes will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

The SROs have neither solicited nor received written comments on the proposed rule changes.

## III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) by order approve the proposed rule change, or

(B) institute proceedings to determine whether the proposed rule change should be disapproved.

### IV. Solicitation of Comments
