[Airspace Docket No. 95–AGL–9]

Proposed Realignment of Jet Route J– 588

AGENCY: Federal Aviation Administration (FAA), DOT. ACTION: Notice of proposed rulemaking.

SUMMARY: This proposed rule would alter Jet Route J–588 between the state of Michigan and Canada. This proposed action is necessary because the Stirling, ON, Canada, Very High Frequency Omnidirectional Range (VOR) has been decommissioned. Altering J–588 would ensure continuity for aircraft transitioning along that jet route to and from the United States and Canada. **DATES:** Comments must be received on or before November 22, 1995.

ADDRESSES: Send comments on the proposal in triplicate to: Manager, Air Traffic Division, AGL–500, Docket No. 95–AGL–9, Federal Aviation Administration, O'Hare Lake Office Center, 2300 East Devon Avenue, Des Plaines, IL 60018.

The official docket may be examined in the Rules Docket, Office of the Chief Counsel, Room 916, 800 Independence Avenue, SW., Washington, DC, weekdays, except Federal holidays, between 8:30 a.m. and 5:00 p.m.

An informal docket may also be examined during normal business hours at the office of the Regional Air Traffic Division.

Communications should identify the airspace docket number and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: 'Comments to Airspace Docket No. 95-AGL-9." The postcard will be date/time stamped and returned to the commenter. All communications received on or before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in light of comments received. Persons interested in being placed on a mailing list for future NPRM's should also request a copy of Advisory Circular No. 11–2A, which describes the application procedure.

The Proposal

The FAA is considering an amendment to part 71 of the Federal Aviation Regulations (14 CFR part 71) to alter Jet Route J-588 from the Sault Ste Marie, MI, VOR to the Stirling, ON, Canada, VOR. The Stirling VOR was decommissioned in July 1995. To ensure that continuity exists along J-588 for aircraft transitioning to and from the United States and Canada, the jet route would be realigned with the Campbellford, ON, Canada, VOR. Jet routes are published in paragraph 2004 of FAA Order 7400.9C dated August 17, 1995, and effective September 16, 1995, which is incorporated by reference in 14 CFR 71.1. The jet route listed in this document would be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
