the rule become effective. Through this effort, EPA and CMA hope to facilitate early and substantial compliance through the development of timely guidance.

This document is developed for the corporate and plant personnel who would either oversee or perform activities that are affected by the amendment. The guidance document contains eight stand-alone modules that include timelines and questions/answers. The guidance also includes two flow diagrams summarizing the new requirements.

An open process was used to develop this guidance. Both EPA and CMA invited several environmental groups and unions that may have interests in this amendment to participate on the workgroup or review documents developed by the workgroup. In addition, the Agency was also careful to ensure that the development of the guidance did not affect the rulemaking process. To accomplish this, the draft guidance was developed based on the language in the proposed rule and discussions on any potential changes in the final rule were strictly prohibited. Once the rule was promulgated, the draft guidance was amended to reflect the final rule.

**DATES:** This document will be available to the public after September 27, 1995.

ADDRESSES: Copies of the Section 608 Leak Repair Amendment Guidance Document EPA300–B–95–010 may be obtained by calling the Stratospheric Protection Hotline at (1–800–296–1996) from 9 a.m. to 4 p.m., Monday through Friday, except on Federal holidays.

FOR FURTHER INFORMATION CONTACT: For general information contact the Stratospheric Protection Hotline at (800) 296–1996. For information on specific aspects of the guidance document, contact Tracy Back at (202) 564–7076 or Emily Chow at (202) 564–7071, Chemical, Commercial, and Municipal Services Division (2224–A), U.S. Environmental Protection Agency, 401 M Street SW, Washington, DC 20460.

Dated: September 29, 1995. Richard Colbert, *Acting Director, Office of Compliance.* [FR Doc. 95–24787 Filed 10–4–95; 8:45 am] BILLING CODE 6560–50–P

## Science Advisory Board; Notification of Public Advisory Committee Meeting(s), Open Meeting(s)

Pursuant to the Federal Advisory Committee Act, Public Law 92–463, notice is hereby given that the Radiation Advisory Committee (RAC) of the Science Advisory Board (SAB) will hold public teleconference meetings on the dates and times described below. All times noted are Eastern Time. Information on how to participate in these teleconferences can be found at the end of this notice.

(1) Radiation Advisory Committee (RAC) Teleconference on Environmental Radiation Ambient Monitoring System (ERAMS) Advisory—October 24, 1995

The Radiation Advisory Committee (RAC) will conduct a teleconference meeting on Tuesday, October 24, 1995 from 11:00 am to 1:00 pm. In this teleconference, the RAC intends to discuss and reach closure on its draft advisory report, which provides advice to the Agency on reconfiguring the Agency's Environmental Radiation Ambient Monitoring System (ERAMS) [SAB Project #96–014]. The ERAMS is a continuous monitoring network operating throughout the U.S. and its territories. The basic goals of the network are to provide a means of estimating the ambient levels of radioactive pollutants in the environment, following trends in environmental radioactivity levels, and assessing the impact of fallout and other intrusions of radioactive materials. The RAC had conducted a review of ERAMS on July 13 and 14, 1995 at the Agency's National Air and Radiation Environmental Laboratory (NAREL) in Montgomery, Alabama (See Federal Register, Vol. 60, No. 121, Friday, June 23, 1995, pp. 32674-32675). The RAC was introduced to the topic of this review at its public meeting on May 25, 1995 in which a preliminary discussion occurred on the upcoming advisory review of ERAMS (See Federal Register, Vol. 60, No. 80, Wednesday, April 26, 1995, pp. 20491-20492)

The draft documents that are the subject of this review are available from the originating office (see below) and are not available from the SAB Office. To discuss technical aspects of the ERAMS program, or to obtain review and background information provided to the SAB's RAC, please contact Dr. Mary Clark, Technical Advisor, Office of Radiation and Indoor Air (ORIA), U.S. Environmental Protection Agency (6601J), 401 M Street, SW., Washington, DC 20460 (Tel. 202–233–9320; FAX 202–233–9651).

To simply obtain copies of the draft ERAMS documents, please contact Dr. Charles Petko at (334) 270–3400, FAX (334) 270–3451. The background documents that support this review are

available in the Agency's Air and Radiation Docket. Please address written inquiries as follows: USEPA, Attn: Air and Radiation Docket, Mail Stop 6102, Air, Room M1500, First Floor, Waterside Mall, 401 M Street, SW., Washington, DC 20460. The docket may be inspected from 8:00 a.m. to 4:00 p.m., Monday through Friday, excluding Federal holidays in Room 1500. A reasonable fee may be charged for copies of docket materials. Inquiries regarding access to the public information docket should be directed to Ms. Jamie Burnett at (202) 233–9340.

(2) Radiation Advisory Committee (RAC) Teleconference on Fiscal Year 1996 Project Planning—October 25, 1995

The Radiation Advisory Committee (RAC) will conduct a teleconference meeting on Wednesday, October 25, 1995 from 11:00 am to 1:00 pm. In this teleconference, the RAC intends to discuss its potential Fiscal Year 1996 review projects. The topics likely to be covered include scheduling and brief preliminary discussions of the tentative charges of the following:

(a) Environmental Radiation Ambient Monitoring System (ERAMS) II, [SAB

Project #96-015],

(b) ICRP Lung Model for Estimating Doses From Inhaled Particulates, [SAB Project # 96–016],

(c) Review of Methodology for Estimating Uncertainties in Dose and Risk, [SAB Project #96–017],

(d) Radon Proficiency Programs, [SAB Project #96–018],

(e) Radon Measurement Protocol Evaluation Study, [SAB Project #96– 019],

(f) National Survey of Radon in Workplaces, [SAB Project #96–020],

- (g) Methodology for Identifying High Radon Geographic Areas, [SAB Project #96–021],
- (h) Review of Application of Biological Effects of Ionizing Radiation (BIER VI) Report, Prepared by the National Academy of Sciences (NAS), [SAB Project #96–022],
- (i) Review of the Possible Carcinogenicity of Electro-Magnetic Fields (EMF).
- (j) Review of the Agency's Environmental Goals Project (Examination of "measures of success" for environmental goals through the year 2005),
- (k) Reducing Risk II (A follow-up to Reducing Risk, 1990 Project), and
- (l) Futures II (A follow-up to Futures, 1995 Project)

It is not expected in the time-frame available that extensive or comprehensive discussions will occur
