on the above projects. Instead, it is anticipated that the main focus of the discussions will be overview and planning for managing the workload and focus of the RAC on the likely charges to be addressed among these topics in the course of the coming fiscal year. It is anticipated that the RAC will have a dialogue with the Agency staff on each of these topics, and if time permits, other possible review topics may be discussed.

Providing Oral or Written Comments at SAB Meetings

The Science Advisory Board expects that public statements presented at its meetings will not be repetitive of previously submitted oral or written statements. In general, for teleconference meetings, opportunities for oral comment will be limited to no more than three minutes per speaker and no more than fifteen minutes total. Written comments (at least 35 copies) received in the SAB Staff Office sufficiently prior to a meeting date (usually one week prior to a meeting or teleconference), may be mailed to the relevant SAB committee or subcommittee prior to its meeting; comments received too close to the meeting date will normally be provided to the committee at its meeting, or as soon as possible following a teleconference. Written comments may be provided to the relevant committee

or subcommittee up until the time of the meeting.
