112(l)(5) and 40 CFR 63.91 of the state's program for receiving delegation of section 112 standards that are unchanged from federal standards as promulgated. This program for delegations only applies to sources covered by the Part 70 program.

III. Administrative Requirements

A. Docket

Copies of the District's submittal and other information relied upon for the final interim approval, including one public comment letter received and reviewed by EPA on the proposal, are contained in docket number CA–MN– 95–1–OPS maintained at the EPA Regional Office. The docket is an organized and complete file of all the information submitted to, or otherwise considered by, EPA in the development of this final interim approval. The docket is available for public inspection at the location listed under the **ADDRESSES** section of this document.

B. Executive Order 12866

The Office of Management and Budget has exempted this action from Executive Order 12866 review.

C. Regulatory Flexibility Act

The EPA's actions under section 502 of the Act do not create any new requirements, but simply address operating permits programs submitted to satisfy the requirements of 40 CFR part 70. Because this action does not impose any new requirements, it does not have a significant impact on a substantial number of small entities.

D. Unfunded Mandates

Under section 202 of the Unfunded Mandates Reform Act of 1995 ("Unfunded Mandates Act"), signed into law on March 22, 1995, EPA must prepare a budgetary impact statement to accompany any proposed or final rule that includes a federal mandate that may result in estimated costs to state, local, or tribal governments in the aggregate; or to the private sector, of \$100 million or more. Under section 205, EPA must select the most costeffective and least burdensome alternative that achieves the objectives of the rule and is consistent with statutory requirements. Section 203 requires EPA to establish a plan for informing and advising any small governments that may be significantly or uniquely impacted by the rule.

The EPA has determined that the approval action promulgated today does

not include a federal mandate that may result in estimated costs of \$100 million or more to either state, local, or tribal governments in the aggregate, or to the private sector. This federal action approves pre-existing requirements under state or local law, and imposes no new federal requirements. Accordingly, no additional costs to state, local, or tribal governments, or to the private sector, result from this action.

Designation of Area for Air Quality Planning Purposes; New Mexico; Designation of Sunland Park Ozone Nonattainment Area

AGENCY: Environmental Protection Agency (EPA). **ACTION:** Correction of final rule.

SUMMARY: The EPA published a final Federal Register (FR) action on June 12,

1995 (60 FR 30789–30791) which redesignated a portion of Dona Ana County, New Mexico (i.e. the Sunland Park area) from unclassifiable/ attainment to nonattainment for the ozone National Ambient Air Quality Standards (NAAQS) with a marginal classification. The redesignation, based upon violations of the ozone NAAQS which were monitored from 1992–1994, became effective on July 12, 1995.

In the June 12, 1995, FR action, on page 30791 in the table entitled "New Mexico—Ozone," the Classification Type should have read "Marginal" instead of "Nonattainment." This FR action provides the correction.

EFFECTIVE DATE: October 6, 1995.
