system so that the window transport is inoperative when the ignition is switched off.

Standard No. 206 *Door Locks and Door Retention Components:* replacement of the rear door locks and lock buttons with U.S.-model parts.

Standard No. 208 Occupant Crash Protection: (a) installation of a U.S.model seat belt in the driver's position, or a belt webbing-actuated microswitch inside the driver's seat belt retractor; (b) installation of an ignition switchactuated seat belt warning lamp and buzzer; (c) replacement of the driver's side aid bag with a U.S.-model component; (d) installation of a U.S.model knee bolster on the driver's side. The petitioner states that lap and shoulder restraints are also furnished at the two front designated seating positions and the rear outboard seating positions, and that a lap belt is furnished at the rear center seating position.

Standard No. 214 *Side Door Strength:* installation of reinforcing beams.

Standard No. 301 *Fuel System Integrity:* installation of a rollover valve in the fuel tank vent line between the fuel tank and the evaporative emissions collection canister.

Interested persons are invited to submit comments on the petition described above. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5109, 400 Seventh Street, S.W., Washington, DC 20590. It is requested but not required that 10 copies be submitted.

All comments received before the close of business on the closing date indicated above will be considered, and will be available for examination in the docket at the above address both before and after that date. To the extent possible, comments filed after the closing date will also be considered. Notice of final action on the petition will be published in the **Federal Register** pursuant to the authority indicated below.

Authority: 49 U.S.C. 30141(a)(1)(A) and (b)(1); 49 CFR 593.8; delegations of authority at 49 CFR 1.50 and 501.8.

Issued on: December 21, 1994.

Decision That Nonconforming 1990 Mercedes-Benz 560SEL Passenger Cars are Eligible for Importation

AGENCY: National Highway Traffic Safety Administration (NHTSA), DOT. ACTION: Notice of decision by NHTSA that nonconforming 1990 Mercedes/ Benz 560SEL passenger cars are eligible for importation.

SUMMARY: This notice announces the decision by NHTSA that 1990 Mercedes-Benz 560SEL passenger cars not originally manufactured to comply with all applicable Federal motor vehicle safety standards are eligible for importation into the United States because they are substantially similar to a vehicle originally manufactured for importation into and sale in the United States and certified by its manufacturer as complying with the safety standards (the U.S.-certified version of the 1990 Mercedes-Benz 560SEL), and they are capable of being readily altered to conform to the standards.

DATE: This decision is effective January 4, 1995.

FOR FURTHER INFORMATION CONTACT: Ted Bayler, Office of Vehicle Safety Compliance, NHTSA (202–366–5306).

SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 30141(a)(1)(A) (formerly section 108(c)(3)(A)(i) of the National Traffic and Motor Vehicle Safety Act (the Act)), a motor vehicle that was not originally manufactured to conform to all applicable Federal motor vehicle safety standards shall be refused admission into the United States unless NHTSA has decided that the motor vehicle is substantially similar to a motor vehicle originally manufactured for importation into and sale in the United States, certified under 49 U.S.C. § 30115 (formerly section 114 of the Act), and of the same model year as the model of the motor vehicle to be compared, and is capable of being readily altered to conform to all applicable Federal motor vehicle safety standards.

Petitions for eligibility decisions may be submitted by either manufacturers or importers who have registered with NHTSA pursuant to 49 CFR Part 592. As specified in 49 CFR 593.7, NHTSA publishes notice in the **Federal Register** of each petition that it receives, and affords interested persons an opportunity to comment on the petition. At the close of the comment period, NHTSA decides, on the basis of the petition and any comments that it has

received, whether the vehicle is eligible for importation. The agency then publishes this decision in the **Federal Register**.

Champagne Imports, Inc. of Lansdale, Pennsylvania (Registered Importer R-90–009) petitioned NHTSA to decide whether 1990 Mercedes-Benz 560SEL passenger cars are eligible for importation into the United States. NHTSA published notice of the petition on October 12, 1994 (59 FR 51657) to afford an opportunity for public comment. The reader is referred to that notice for a thorough description of the petition. No comments were received in response to the notice. Based on its review of the information submitted by the petitioner, NHTSA has decided to grant the petition.

Vehicle Eligibility Number for Subject Vehicles

The importer of a vehicle admissible under any final decision must indicate on the form HS-7 accompanying entry the appropriate vehicle eligibility number indicating that the vehicle is eligible for entry. VSP 89 is the vehicle eligibility number assigned to vehicles admissible under this decision.

Final Determination

Accordingly, on the basis of the foregoing, NHTSA hereby decides that a 1990 Mercedes-Benz 560SEL (Model ID 126.039) not originally manufactured to comply with all applicable Federal motor vehicle safety standards is substantially similar to a 1990 Mercedes-Benz 560SEL originally manufactured for importation into and sale in the United States and certified under 49 U.S.C. § 30115; and is capable of being readily altered to conform to all applicable Federal motor vehicle safety standards.
