SPF requires USPS authorization under 2.3 and mailer use of a unique ACS/SPF identifier as part of an address block keyline. The keyline mail must be leftjustified (below the optional endorsement line, if used), and must begin with a pound sign (#) delimiter, followed by the 4-character code indicating the weight and rate category of the piece, up to 12 characters of optional customer information (the last of which is a check digit), and a closing # delimiter. (ACS participants must use the specific ACS/SPF identifier and keyline format to participate in ACS/ SPF.) For information, write to USPS ACS/SPF, National Customer Support Center.

2.3 Availability of ACS and ACS/SPF

Where mail is marked with ACS symbols under M013, ACS and ACS/ SPF are available to authorized mailers who maintain their address records on computers and whose mail bears the correct endorsement to obtain address correction and nonlocal fourth-class forwarding. ACS and ACS/SPF are available on the frequency requested by the mailer. Because ACS and ACS/SPF are associated with USPS-computerized forwarding operations, these services are not available at all post offices. Information about ACS or SPF (including application) is available from: USPS Address Change Service, National Customer Support Center.

[Renumber existing 2.3 and 2.4 as 2.4 and 2.5, respectively; no change in text]

3.0 SENDER INSTRUCTION

*

3.2 Special Services

e. Insured fourth-class mail without any other endorsement is forwarded at no charge locally and postage-due nonlocally if the recipient guarantees to pay forwarding postage. Insured fourthclass mail endorsed for ACS/SPF under 2.2 is forwarded at no charge to the addressee. (For forwarding, local means within the same post office.) If the article is undeliverable, the USPS returns it to the sender with the new address or the reason for nondelivery. The sender is charged for the return of the mailpiece and the attempted forwarding, when appropriate. * *

*

M013 Optional Endorsement Lines

* * * *

2.0 FORMAT

2.1 Presort Identification

Except when an address block barcode is placed above the optional endorsement line, the appropriate presort identification must be the first line at the top of the address block or label. Mailers participating in Address Change Service (ACS), including ACS with or Shipper Paid Forwarding (SPF), under F030 may use the first eight positions on the left side of the optional endorsement line for the ACS or ACS/ SPF participant code (see Exhibit 2.1). Third-class mailers participating in the EX3C or BBM/SPMS measurement system may use the first 14 positions on the left side of the optional endorsement line for the measurement system code specified by the USPS for that program.

2.4 Non-ACS, Non-EX3C, and Non-**BBM/SPMS Labels**

On labels not used with ACS (including ACS/SPF), EX3C, or BBM/ SPMS, the optional endorsement line must be filled with asterisks from the left margin of the label or address block (as defined by the position of the first character printed in the address block or on the address label) up to the first character in the optional endorsement line.

2.5 ACS and ACS/SPF Labels

On labels used with ACS or ACS/SPF, the delimiter # must be in the first position at the left margin of the optional endorsement line, followed by the seven-character ACS or ACS/SPF participation code assigned by the USPS; the remaining space between the code and the first character of the makeup information must be filled with asterisks. The keyline required on ACS/ SPF mail under F030 must be leftjustified below the optional endorsement line.

An appropriate amendment to 39 CFR 111.3 to reflect these changes will be published if the proposal is adopted.

Stanley F. Mires,

Chief Counsel, Legislative. [FR Doc. 95-2255 Filed 1-31-95; 8:45 am] BILLING CODE 7710-12-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[CA37-10-6602; FRL-5148-3]

Approval and Promulgation of Implementation Plans; California State Implementation Plan Revision; Santa **Barbara County Air Pollution Control** District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: EPA is proposing a limited approval and limited disapproval of a revision to the California State Implementation Plan (SIP) for ozone. The revision concerns the control of oxides of nitrogen (NO_X) from internal combustion (I/C) engines. The intended effect of proposing limited approval and limited disapproval of this rule is to regulate emissions of NO_X in accordance with the requirements of the Clean Air Act, as amended in 1990 (CAA or the Act). EPA's final action on this notice of proposed rulemaking will incorporate this rule into the federally approved SIP. EPA has evaluated this rule and is proposing a simultaneous limited approval and limited disapproval under provisions of the CAA regarding EPA actions on SIP submittals and general rulemaking authority because these revisions, while strengthening the SIP, also do not fully meet the CAA provisions regarding plan submissions and requirements for nonattainment areas.

DATES: Comments on this proposed action must be received in writing on or before March 3, 1995.

ADDRESSES: Comments may be mailed to: Daniel A. Meer, Rulemaking Section (A-5-3), Air and Toxics Division, U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105-3901.

Copies of the rule revision and EPA's evaluation report of each rule are available for public inspection at EPA's Region IX office during normal business hours. Copies of the submitted rule revisions are also available for inspection at the following locations: Santa Barbara County Air Pollution

Control District, Rule Development Section, 26 Castilian Drive B-23, Goleta, CA 93117.

California Air Resources Board, Stationary Source Division, Rule Evaluation Section, 2020 "L" Street, Sacramento, CA 95812.
