Notes: Comparable BI/PD coverage was priced in the allowance and in the reference area, and premiums were compared to derive indexes. These indexes were used to estimate the cost of equivalent coverage in allowance area. Uninsured Motorist premiums were adjusted using the relative total cost of premiums (less Medical coverage where applicable), and Medical premiums were not adjusted because they were not part of the reference area normal coverage.

*Less Medical.

**Including Medical.

AUTO INSURANCE CALCULATION WORKSHEET—SPECIAL LIMITS ADJUSTMENTS
